More than Half a Century of Precision

SINCE 1887

The plant at the left was the first home of the New Britain Machine Company whose products in the intervening years have come to be known throughout the world. The factory below is one of the two large plants now required to house its operations.

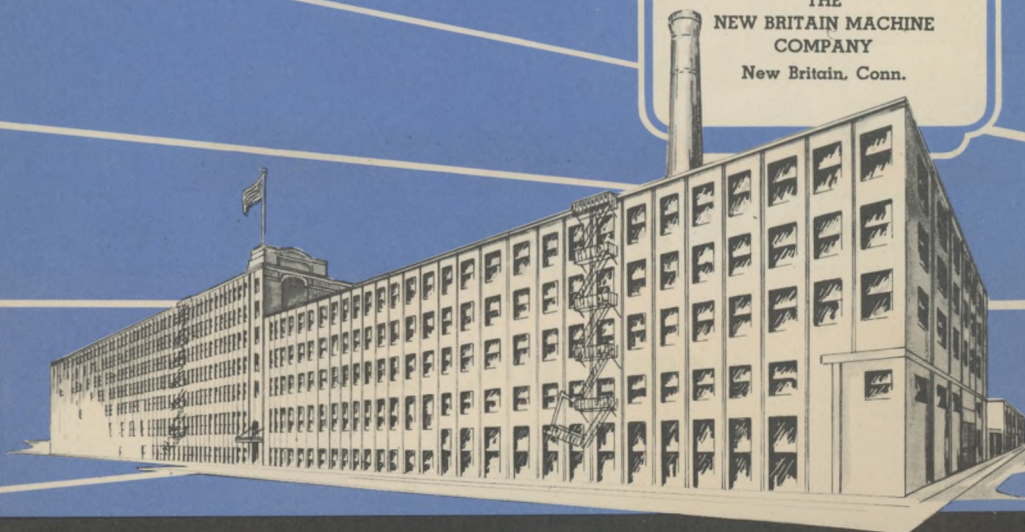

GUARANTEE: All New Britain products are guaranteed to be free from imperfections in workmanship and material. We will gladly replace without charge any tools showing defects of material or workmanship, after such tools are received at the factory, and examined by us.

All New Britain tools may be purchased on the Commercial Credit Company Automotive Equipment Time Payment Plan.

DISCOUNTS: Liberal discounts are extended from all of the prices in this catalog. Current net price sheets will be furnished upon request.

Craftsmanship Backs this New Line of AUTOMOTIVE HAND TOOLS

XREP
March 75/4

WE PRESENT

with pride, the complete new line of New Britain Tools.

As you check through these many time saving tools, you will often ask yourself, "I wonder who thought of all these new tools."

The answer is, you did. That is, you and others interested in the improvement of professional mechanics tools, have sent us many valuable suggestions. These, we have combined with the resources of the New Britain Machine Company, and the tool making ability and love of craftsmanship in steel, which has been passed along from father to son since 1887.

We invite you to step through the doorway to the right and, in the following pages of this book, glimpse a printed display of *New Britain* tools.

Heavy Duty Wrenches

3/4" Square Drive

It's true. At last a line of heavy duty sockets and handles that are designed for present day work. The trend of building Buses, Trucks and even Tractors with streamlined bodies makes for tight places around the giant nuts and bolts which hold them together. Thin walled Heavy Duty Sockets are needed just as much on present day heavy duty vehicles as on passenger cars. Because business cars are money producers, quick service is vital. You will find New Britain Heavy Duty Sockets to be money makers for you in every respect. They too are equipped with the "Keyless Locking Feature" which insures against accidents and yet permits quick assembly. Every tool is Triple Chrome Plated to guard against weather and preserve its appearance.

HEAVY DUTY FLEX HANDLE

For many reasons a Flex Handle is the most widely used Heavy Duty attachment. Because this tool has better balance, greater strength and the ability to get into tight corners, it will amaze you by its workability.

Number	Length	Std. Pkg.	Ship. Wgt. Ea.	List Price
NH-55	19"	12	4 1/2 lbs.	\$12.00

HEAVY DUTY CROSS BAR

Unless you have had a Cross Bar bend and twist under a severe strain, you won't appreciate this specially hardened and tempered tool. Despite its slim and trim appearance, it will combine with the Flex Handle to make the most durable Tee Handle, Spinner or Hinged Wrench you have ever used.

Number	Length	Std. Pkg.	Ship. Wgt. Ea.	List Price
NH-30	12"	12	14 oz.	\$1.85

HEAVY DUTY SLIDE TEE HANDLE

Its ability to serve as several different tools has always made it a favorite. It combines with extensions and universal joints to make very handy tools.

Number	Length	Std. Pkg.	Ship. Wgt. Ea.	List Price
NH-70	18"	12	3 1/2 lbs.	\$5.05

HEAVY DUTY RATCHET

It will not jam! When there's heavy work that must be done quickly, nothing takes its place. Its many teeth make for more quick and non-slip positions than you will ever need.

Number	Length	Std. Pkg.	Ship. Wgt. Ea.	List Price
NH-40	18"	10	2 lbs.	\$16.20

3/4" Drive Sets

New Britain Socket Sets 3/4" Square Drive

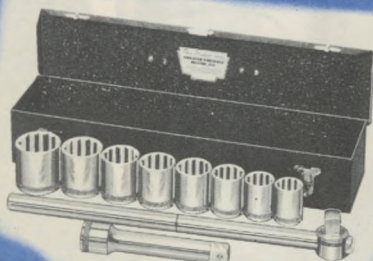

10 PIECE HEAVY DUTY SOCKET SET

A Heavy Duty Set that will supply the most essential sizes in sockets and makes a splendid foundation on which to build a complete Heavy Duty Tool equipment. Other sockets and tools can be added as their need arises. Many garages and repair shops are daily losing money on tractor, truck and bus repair jobs because they do not have the proper equipment. All sockets are 12 Point.

24 PIECE HEAVY DUTY SOCKET SET

Trucks, buses and tractors call for heavier tools on both construction and repair work. The same quality and design that have made the lighter New Britain tools the mechanic's friend will be found in these, plus the rugged strength required for real heavy duty work. Made from Alloy Steel and finished in triple chromium plate.

1/2" Drive Tools

New Britain Sockets

1/2" Square Drive

The thinnest, toughest sockets ever made. Their gleaming Triple Chrome Plate Finish gives no indication of the enormous strength and toughness that has been built into these tools. Designed for work on modern airplanes and automobiles where nothing but these trim tools will get at the job. Every one of them is equipped with the "Keyless Locking Feature" described below.

Have you ever wished for a Line of deep sockets which would take care of all Spark Plugs — U Bolts, Spring Clips and other long reach jobs? Here it is! A complete line in all sizes for every purpose.

When you attach New Britain Sockets and handles they stay put. The exclusive New Britain "Keyless Locking Feature" assures you of a firm joint and yet it is instantly detachable.

The exclusive Patented New Britain Ratchet must be seen to be appreciated. Its great strength comes from the unique double tooth engagement feature. But its perfect balance and convenient reversing action can be seen and felt immediately. Every part of this unequalled wrench has been the result of years of study and testing. A number of different alloys and heat treatments create a combination of working parts which always work freely and smoothly. If you feel that a completely satisfactory ratchet has never been made, you will be pleasantly surprised when you get the "feel" of this superb tool. A dealer's display stand is pictured above.

Reversible Ratchet

1/2" Square Drive

Number	length	Std. Pkg.	Ship. Wt.	List Price
NS-40	10"	10	16 lbs.	\$7.75

EXTENSION BARS

These Extension Bars were carefully designed to give complete coverage with the least number of Bars. The correct Bar will bring the work to you and cut down time wasted with long reach jobs.

Number	Length	Std. Pkg.	Ship. Wt.	List Price
NS-24	5"	10	6 lbs.	\$1.55
NS-25	10"	10	10 lbs.	1.90
NS-28	20"	10	17 lbs.	2.65

DOUBLE MALE EXTENSIONS

The invaluable tool in making your own special wrenches is the Double Male Extension. Because it will take a female opening on both ends it permits an unlimited number of assemblies without the use of any short adapters.

Number	Length	Std. Pkg.	Ship. Wt.	List Price
NS-26	5"	10	6 lbs.	\$1.35
NS-27	8"	10	8 lbs.	1.45

ELL HANDLE

Ideal for Spark Plugs or for breaking loose the rusted nuts on exposed parts. Has great strength and is well designed for quick handling. It will take sockets or connections on both ends.

Number	Length	Std. Pkg.	Ship. Wt.	List Price
NS-4978	8"	10	9 lbs.	\$1.15

New Britain Handles and Attachments

1/2" Square Drive

FLEX HANDLES

These new Flex Handles fill a long felt want. The drive can be fixed in five different positions with socket attached. In this way it is possible to reach otherwise inaccessible places. A square hole is broached in the end of the Handle, permitting a hookup with any extensions.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-56	18"	10	20 lbs.	\$4.90
NS-57	15"	10	17 lbs.	4.50
NS-58	12"	10	13 lbs.	4.00

CROSS BAR

Especially designed to operate with each of the above Flex Handles. Its great strength makes it suitable as a Tee Handle.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-31	10"	10	1 1/4 lbs.	\$.60

MALE & FEMALE SLIDE TEE HANDLES

The many purpose slide tee handle which can also be used as an offset handle is offered in two types, male and female. With the male the socket may be attached directly to the head of the tee handle, while the female type is used in conjunction with one of the different length adapters. Any of the various combinations forms a sturdy individual wrench.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-70	9"	10	10 lbs.	\$2.50
NS-75	9"	10	10 lbs.	2.20

UNIVERSAL JOINT

Compact, sturdy and easy working. A Universal Joint designed for difficult corners.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-60	2 9/16"	10	6 lbs.	\$3.00

SPEEDERS

The original speed-up tool. Nothing takes the place of a New Britain Speeder for quick work.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-85	19"	10	18 lbs.	\$2.20
NS-86	13"	10	13 lbs.	2.05

STUD SETTER & EXTRACTOR

The only detachable Stud Extractor. Its unique design permits of quick dismantling. Compact in size so that it can be used for setting various studs, as well as extracting. Capacity, 5/16" to 3/4".

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price

New Britain Socket Sets

1/2" Square Drive — Triple Chrome Plated

14 PIECE STRAIGHT WALL SOCKET HOLDER SET

Many mechanics prefer to keep all of their sockets for each drive in these handy holders. They are easy to bring to the job and they do not take up any extra room in the tool box. Contains 1/2" Square Drive Straight Thin Wall Sockets in the following sizes:

NT-1214	7/16"	12 Pt. Socket	NT-1226	1 3/16"	12 Pt. Socket
NT-1216	1/2"	12 Pt. Socket	NT-1228	7/8"	12 Pt. Socket

12 PIECE EXTRA DEEP SOCKET HOLDER SET

For work on the spark plugs on modern cars there is no safer tool than these extra deep sockets. The extra depth and thin wall reach easily and turn plugs in the tightest places without damage. The accurate 12 Point broaching gives a positive grip, eliminating the danger of cracked porcelains or mutilated plugs. To meet the demand for a complete line of sizes we have made up this set in a handy steel case with handle. There are twelve sockets in the following sizes: 1/2", 5/8", 1 1/16", 3/4", 1 1/8", 1 1/4", 1 1/2", 1 5/8", 1 3/4", 1 7/8", 2", 2 1/8". Beautifully finished in bright polished chrome.

New Britain General Purpose Wrench Sets

6036

50 PIECE AIRCRAFT WRENCH SET

Thin walls, thin heads and slim handles combine to make this assortment the ideal selection for Airplane mechanics. The 3/8" Square Drive items are the true Aircraft size and will get into the smallest openings encountered on Airplane motors and still have the strength to loosen or tighten. The 1/2" Square Drive tools are all streamlined and the sockets are straight walls with the thinnest possible construction. The Open Ends, Box Wrenches, Combinations and Tappets are the new New Britain designs which are thinner, lighter and stronger than any wrenches heretofore offered to the trade and, because of this — they are the last word for Aircraft work.

36 PIECE MULTI-DUTY SET

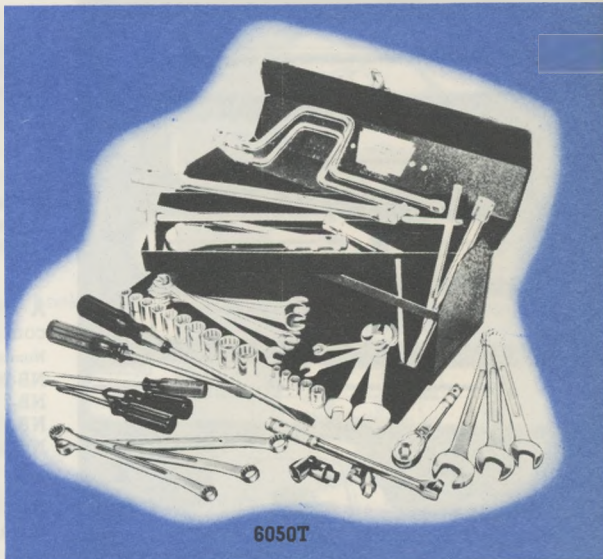

The increasingly large amount of work on trucks, buses, industrial equipment, farm machinery including tractors, has made a set such as this of great value to many buyers. It includes a wide selection of 1/2" Drive 12 Point and 8 Point sockets as well as the handles to be used with them. The ten 3/4" Drive sockets cover the most widely used large size nuts. The handles and extensions to be used with these are included.

Handles and Attachments

3/8" Square Drive

Every year the need increases for streamlined tools for modern work. On many jobs the extra 16th or 8th of an inch bulk found in other tools makes them useless for fast work. New Britain 3/8" Square Drive are exactly 3/8" and they have the utmost in clearance and the ability to get after hidden bolts. The sockets have walls that are almost paper thin and, together with the wide selection of Handles and Flex Sockets, they can overcome any obstructions.

REVERSIBLE RATCHET

Power and Compactness are difficult to combine. Yet the New Britain 3/8" Drive Ratchet, due to its patented features, does accomplish this. The double-tooth engagement furnishes all of the strength needed even for production work on airplanes.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NB-40	6"	10	5 lbs.	\$5.75

SLIDE TEE HANDLE

The key tool in making special wrenches. Combine it with extension bars and flex sockets for those hidden nuts.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NB-70	8"	10	5 lbs.	\$1.80

FLEX HANDLE

The most widely used tools in any drive are the spinners. This is particularly true in the 3/8" Drive where its flexibility is so vital.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NB-51	10"	10	10 lbs.	\$3.20

CROSS BAR

A vital part of your Flex Handle. Especially tempered to produce great strength.

3/8" Drive Sets

New Britain Socket Sets

38 PIECE SENIOR AIRCRAFT SET

All good mechanics are in agreement on the outstanding advantages of the 3/8" Drive. On hundreds of close jobs the difference of an eighth or a sixteenth of an inch is tremendous. Only the miracle of modern Chrome Alloy Steels, plus the outstanding advantage of the heat-treat method used in New Britain Tools makes their production possible. Their Thin Walls, plus the added slimness that the 3/8" Drive alone can furnish, places them in a class by themselves with the discriminating user. The 38 Pieces in this set include the unequalled New Britain Reversible Ratchet, plus such a wide selection of attachments that this one set will handle a large part of all the jobs in any shop. Packed in a Hip Roof Box.

New Britain Socket Sets

1/4" Square Drive

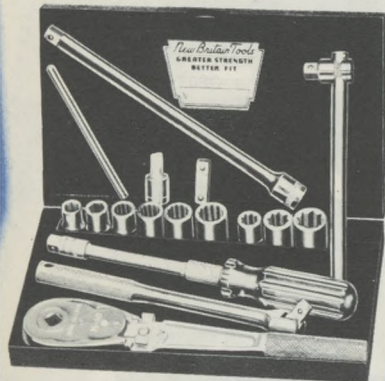

17 PIECE MIDGET SET

Little tools with a big job to do. This 17 Pc. Assortment of New Britain Midget Sockets and Attachments will actually be your fingers of steel. They are true 1/4" and not 9/32" or some other awkward size. For Carburetor, Ignition, and the increasing number of small bolts used on the controls of modern cars. In conjunction with New Britain Midget Box Ends and Open Ends, they fill a long-felt need for small neat tools which must have extreme durability. Packed in neat metal box with a handsome figured finish.

Midget Wrenches

1/4" Square Drive

Every new model car increases the need for Midget tools. As finely made as a watch, yet so durable that they stand up on production work on Airplanes, Refrigerators, Generators, and Carburetors, as well as being preferred in the Repair Trade.

MIDGET RATCHET WRENCH

Made only in reversible. Strong, positive, and designed with a thin, narrow head to get at close quarters. Because it has a female opening, it can be used with either an NM35 Adapter as a 1/4" Ratchet or with an NM36 Adapter as a 3/8" Ratchet. An exclusive item made under the New Britain Ratchet patent.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price
NM-40	6"	Ten	4 lbs.	\$5.75

MIDGET FLEX HANDLE

An entirely new construction making it the fastest Spinner ever produced. Use it with a Cross Bar as a Tee Handle.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price
NM-51 (Flex Handle)	6"	Ten	2 lbs.	\$2.00
NM-31 (Cross Bar)	3"	Ten	1/2 lb.	.25

MIDGET SLIDE TEE HANDLE

A fine basic tool which can be combined with extensions to reach many difficult nuts.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price
NM-70	4 1/2"	Ten	3 lbs.	\$1.20

MIDGET SOCKET EXTENSION

Has great strength so it can be safely used on any type of work.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price
NM-20	6"	Ten	2 1/2 lbs.	\$1.00

MIDGET INCREASING ADAPTER

Permits use of 3/8" Drive Sockets with various 1/4" Square Drive Handles and Ratchets.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price
NM-36	7/8"	Ten	1/2 lb.	\$.70

MIDGET SHORT ADAPTER

Use the 1/4" Square Adapter with the Standard Ratchet or any 1/4" Handle to make special tools.

Number	Length	Standard Pkg.	Shipping Wgt.	List Price

New Britain Midget Tools

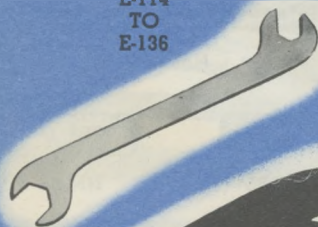

Ignition repairing continues to be one of the most difficult service jobs. Because speed is essential in getting the work out, it is vital that the tools be properly designed for the purpose and that they have "Greater strength and better fit." Ask to see a set of these super-line instruments and you will realize that here is a line of midget tools for every requirement. The 1/4" Drive New Britain Midget Sockets described on the preceding pages complete this time-saving setup for every electrical operation.

IGNITION OPEN END WRENCHES

Every wrench has the correct angle to perfectly fit the nuts for which it is engineered. Attractively Chrome Plated with polished ends.

Box End Wrenches

New Britain

Box End Wrenches

Triple Chrome Plated

Perhaps you think it is impossible to make a box wrench better than the tools you are now using. A new design to insure better fit of the box section on the nut makes possible a new and different working angle. You will secure greater leverage and a conviction that this will be your next box wrench once you handle and compare them.

DELUXE PANEL LONG BOX END, 15 DEGREE

Considerable research work has resulted in the standardization of these wrenches to take care of both the ten degree and fifteen degree fields. Made in the smallest number of non-duplicating sizes to give you a complete range up to 1 1/16". Packed six in a box.

Number	Size	Length	Net Wgt. Ea.	List Price
NDF-200	3/8" x 7/16"	7 3/4"	4 oz.	\$1.05
NDF-202	1/2" x 9/16"	8 3/8"	6 oz.	1.10
NDF-204	5/8" x 1 1/16"	9 13/16"	7 oz.	1.40

New Britain Open End Wrenches

Triple Chrome Plated

Don't trust your eyes! Only a micrometer will tell you the whole amazing story of these entirely new open end wrenches. They not only have the thinnest heads and the slimmest handles but . . . they have built into them the ability to secure greater leverage and a convenient grip which will be unbelievable, until you have actually handled, measured, and used them. Only thirteen wrenches are needed to give you every size from 1/4" to 1 1/4". No needless duplications. A wrench for every size nut with the smallest investment.

DELUXE PANEL TAPPET WRENCHES

Double end. Offset heads. A new design in tappet wrenches which eliminates needless duplication of lengths and sizes. These are short enough to take care of the small clearance jobs and yet long enough to handle practically all of the work on present day cars. Their slim heads and panelled handles form a perfectly balanced wrench for utility and appearance.

Box End and Open End Wrench Sets

You will always have the right sized wrench for the job if you purchase complete sets of wrenches. The attractive leather rolls not only keep the wrenches from undue abuse but they provide a checkup on their whereabouts every time you put the wrenches away. Because New Britain Wrenches have the minimum of duplicating sizes, you can secure a complete set of these super-tools with the lowest possible investment.

SW-24	24"	2 1/2"	7 lb. 4 oz.	6.70

ADJUSTABLE ANGLE WRENCHES

If you have used angle wrenches for a long time, you will really appreciate this new improved wrench. Its unique construction permits it to hold nuts more firmly than the old style wrenches and it has added strength where it is most needed. The jaws are not only non-slip in their hold on the nut, but due to their extreme thinness, they can be used in many places where other wrenches will not enter. 22 1/2° Angle. Packed individually.

Number	Size	Capacity	Thickness of head	Tip of Jaw	Wgt. Packed	List Price

CH-103	9/16" x 3/4"	7 3/4"	6	5 oz.	1.60

OBSTRUCTION OPEN ENDS

Here is a unique wrench which replaces the so-called right angle wrenches and can be used for brakes and also many other purposes around airplanes where a wrench must operate in a very limited space. They will easily remove nuts which would be impossible with any other wrench because they actually will function in spaces where only an inch or two of movement is permitted. 15° and 60° Angle Heads. Permits twenty-four different "bites" on a nut in a 360° Circle.

New Britain Special Battery Tools

BATTERY BOLT WRENCH

A new wrench for battery work which will take care of the bolts on all sizes of modern automobiles. Takes the place of several old-style tools. Its handy design gives a firm and convenient grip. Packed individually.

Number	Length	Size of Openings	Weight	List Price
F-111	7½"	½" & $\frac{9}{16}$ "	10 oz.	\$.95

BATTERY TERMINAL PULLER

Also used for many other light pulling jobs on generators. Carefully designed so that it will get under the corroded battery terminals and lift them out without injuring the post or the terminal. Packed individually.

Number	Capacity	Reach Under Cross Arm	Wgt. Ea.	List Price
P-130	3" ext., 2" to 5" int.	2¾"	2 lbs.	\$3.95

BATTERY TERMINAL PLIERS

Two tools in one. This plier is so designed that the dies will attach either of the two standard sizes of terminals. The frame is hammer hardened and the spring action keeps the pliers conveniently open and ready for use. Packed individually.

Number	Length	Weight Ea.	List Price
P-234	8"	½ lb.	\$4.90

BATTERY PLIERS

Designed expressly for battery and installation work. Grips the nuts firmly. Note the offset jaws which provide knuckle clearance.

Number	Size	Finish	Capacity	Packed One	List Price
P-40	8"	Nickel	1"	8 oz.	\$1.40

BATTERY LIFTERS

A new type of battery lifter that is filling a long-felt want. Its unique construction guarantees a firm grip automatically on any terminal post whether new or old. The strap is resistant to battery acids and it will give long and satisfactory service. The short lifter is for the standard batteries in use on most cars. The long size is for the new 20" battery.

Body Tool Equipment

DOOR HINGE PIN PUSHER

Hinge Pins are very difficult to remove, especially on late model cars where hinge pins are close to bodies. The above tool has two tempered guide pins and a heavy fine thread screw. A small starter pin is first used to push hinge pins flush with hinge. Pins of the proper length are then inserted in the tool and the Hinge Pin pushed out. Two sizes of collars are furnished to guide various size Pin heads.

Number	Weight	List Price
P-101	5 lbs.	\$15.00

SOLID BODY FILE HOLDER (Made from selected Maple)

Preferred by many mechanics because of its comfortable grip. Holds the file securely without undue flexing which sometimes causes breakage. Because the file rests against a wooden support, it does not have any dulling effect on the curved teeth. Packed individually.

Number	Length	Weight	List Price
285	14½"	¾ lb.	\$3.30

ADJUSTABLE FILE HOLDER

Takes the place of several styles of file holders. Adjusts the file for either concave or flat surfaces. The safety feature eliminates adjustments which might cause undue tension on the file. Packed individually.

Number	Length	Weight	List Price
280	14"	1½ lb.	\$4.00

COMBINATION FILE HOLDER

Will take either 12" or 14" body files. Made of heavy steel which will stand up under severe use. Packed individually.

Number	Length	Weight	List Price
284	17"	1¼ lb.	\$2.20

FLEXIBLE BODY FILES

(See special File Supplement)

GLASS REMOVING TOOL

A specially designed Chisel Type Tool with a ¼" blade for getting after broken glass. It will do the job safely and quickly without damaging the window panels. Equipped with a durable Pyralin handle. Packed individually.

Number	Length	Weight	List Price
M-256	10"	3 oz.	\$4.00

UPHOLSTERY SCREW DRIVER

The only way to remove the upholstery screws safely from Chevrolets and some other types is with this special screw driver to fit the figure "8" type screws.

Number	Length Overall	Width of Tip	Size Blade	Weight	List Price
M-132	8¾"	¼"	4½"	1 doz. 3 lbs.	\$.98

ESCUTCHEON PLATE DEPRESSOR

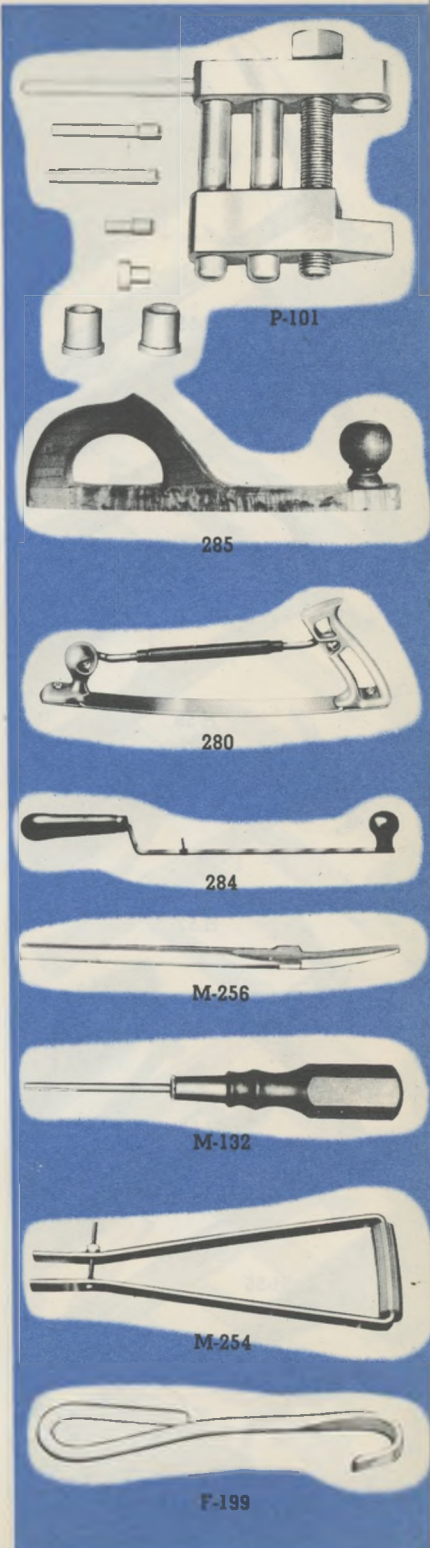

A tried and proven body workers' tool. Escutcheon plates that take so long to get at with makeshift devices can be quickly handled with this convenient tool. Packed individually.

Number	Length	Weight	List Price
M-254	6"	3 oz.	\$2.60

FORD DOOR FRAME SPRING DEPRESSOR

The late model Ford Cars require this tool to get at the clips and it will pay for itself very often on the first job.

Number	Length	Weight	List Price
F-199	10"	4 oz.	\$2.50

New Britain

Body and Fender Hammers

Ever-changing bodies require new tools for accurate work. The professional mechanic appreciates new designs in this Line as soon as he feels their balance. The new angles on the hammer faces fit the new bodies and permit accurate and speedy work.

FINISHING HAMMER

Here's just the right hammer for high crowned fenders and other hard-to-get-at places where a long reaching pein is useful.

Number	Ounces	Head	Face Diam.	Handle	Packed ½ doz.	List Price
H-55	15	8"	1 ¼"	12"	5 lbs.	\$4.25

CURVED FINISHING HAMMER

A long reach metal finishing hammer with a lead pencil size point for use in driving up small dents in low crown and flat panels. Permits reaching over braces and inner construction inside the bodies. Will also reach into such places as the edge of a roof rail panel and in behind reinforcements.

Number	Rd. Face	Point	Length Head Pointed End	Head Overall	Wgt.	List Price
H-80	1 ¼"	1/32" radius	5 ½"	8"	9 oz.	\$4.10

FINISHING HAMMER

Another very popular hammer because of the medium long point for working under fenders. For finishing work, it has a highly polished face, 1 5/8" in diameter.

Number	Ounces	Head	Rd. Face	Handle	Packed ½ doz.	List Price
H-58	9	6 ¾"	1 5/8"	11 ½"	6 ½ lbs.	\$4.20

SPECIAL BUMPING HAMMER

The small pein and flat polished head of this hammer makes it a fine combination tool for driving up small dents and smoothing.

Number	Ounces	Head	Rd. Face	Point Radius	Length Pointed End	Packed ½ doz.	List Price
H-52	7	4"	1 9/16"	3/8"	2"	3 lbs.	\$3.65

CROSS PEIN BUMPING HAMMER

The wedge shaped cross pein is for work on Fender Beads, sharp corners along panel beading, mouldings and numerous other surfaces.

Number	Ounces	Head	Rd. Face	Handle Pein	Packed ½ doz.	List Price
H-57	9	5 ¼"	1 ¼"	11 ½"	4 ¼ lbs.	\$4.20

FENDER BUMPER

Designed especially for rough-out work. This Fender Bumper reaches underneath fenders without removing wheels.

Number	Lbs.	Head	Diam. of Face	Overall	Packed ½ doz.	List Price
H-56	1 ½	8 ½"	1 5/16"	14"	8 ½ lbs.	\$4.30

New Britain

Body and Fender Hammers

BUMPING HAMMER

This sturdy 14 oz. Bumping Hammer is ideal for real tough jobs. Because the weight of the head is equally distributed, it's a very popular tool among automotive body workers.

Number	Ounces	Head	Rd. Face	Sq. Face	Overall	Packed ½ doz.	List Price
H-50	14	4½"	1¼"	1¼"	12"	7 lbs.	\$2.70

LIGHT BUMPING HAMMER

For work on late model cars which have fenders of lighter weight steel, this Light Bumping Hammer is faster and safer.

Number	Ounces	Head	Rd. Face	Sq. Face	Overall	Packed ½ doz.	List Price
H-51	9	4"	1¼"	1⅛"	11½"	4½ lbs.	\$2.65

DINGING HAMMER

A strong hammer built to withstand the severe usage encountered in general bumping and dinging, including the high crown panels where heavier blows are necessary. The long head permits dinging over the obstructions where the shorter hammers cannot reach.

Number	Ounces	Rd. Faces	Head Overall	List Price
H-53	13	1¼" 1⅞"	6"	\$4.20

DINGING HAMMER

A perfectly balanced hammer for light dinging in those places where long reach is necessary. One square face permits dinging in next to the corner of a moulding or beading.

Number	Ounces	Rd. Face	Sq. Face	Head Overall	List Price
H-54	10	1¼"	1⅞"	6"	\$4.20

OFFSET DINGING HAMMER

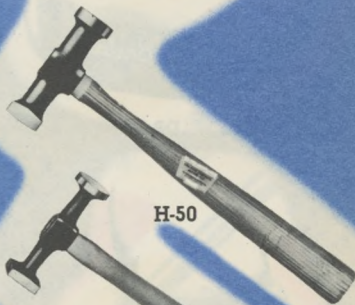

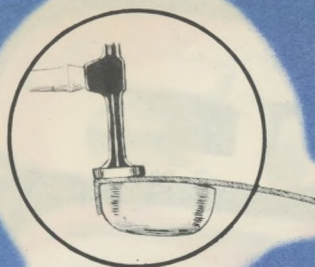

The unusual design of this hammer makes it possible to strike flat face blows while working on crowned or uneven surfaces. It is designed for either right or left handed use.

Number	Ounces	Head	Sq. Face	Rd. Face	Packed ½ doz.	List Price
H-59	10	6½"	1⅞"	1¼"	5½ lbs.	\$4.20

TRIMMER'S HAMMER

Approved by trimmers employed in the auto body factories and service shops. Perfectly balanced head. Excellent for use in trimming or upholstering auto bodies. Has magnetic pick-up feature.

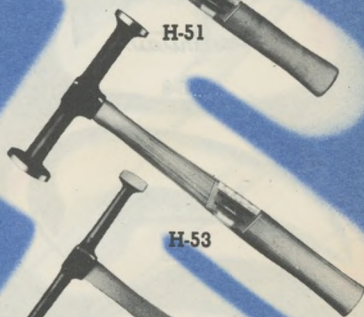

Number	Weight of Head	List Price
H-79	7 oz.	\$4.20

New Britain

Drop Forged Dolly Blocks

These New Britain Dolly Blocks are Drop Forged selected from steel having extreme strength and ductility and are easy on the hammer. Ground with extreme care, finished and oil polished, giving a smooth, perfect surface.

DB-5

DB-7

DB-8

DB-9

DB-11

DB-10

TOE DOLLY BLOCK

This dolly is very adaptable because of its thinness and length. It also has a large perfectly flat face which is very useful in dinging lower hood quarters and other flat panels.

Number	Weight	Length	Width	Thickness	List Price
DB-5	2 1/2 lbs.	4 3/4"	2 1/4"	1 1/8"	\$3.40

BAR DOLLY BLOCK

Fits contours of latest models. The angle between the large low crown face and the sides is less than 90°. This important feature permits dinging in the farthest recesses of a flanged edge.

Number	Weight	Length	Width	Thickness	List Price
DB-7	3 lbs.	4"	2 3/4"	1 5/8"	\$5.45

GENERAL PURPOSE DOLLY BLOCK

One of the most useful dolly blocks ever made. Has several differently crowned working faces and two flanging and beading lips.

Number	Weight	Length	Width	Thickness	List Price
DB-8	3 lbs.	5 1/2"	2 5/8"	2 1/4"	\$7.10

WEDGE DOLLY BLOCK

A favorite among many body repairmen for all-round use. Has a long, thin lip which is very useful in behind reinforcements.

Number	Weight	Length	Width	Thickness	List Price
DB-9	3 lbs.	5 1/2"	2 1/4"	1 7/8"	\$4.50

BODY DOLLY BLOCK

The shape of the block and its curved surfaces are such that they will take care of many late model body jobs. Each block is carefully gauged after it is polished to insure correct radii of the curves.

Number	Weight	Length	Width	Thickness	List Price
DB-11	3 lbs.	3 1/8"	3"	1 5/8"	\$5.55

FENDER DOLLY BLOCK

Especially useful on those extra heavy gauge truck and passenger car fenders which resist the blows of lighter dollies. Fits the hand comfortably so that the fingers are protected from injury.

Number	Weight	Length	Width Bead End	Width Heel End	List Price
DB-10	4 lbs.	3 3/8"	3 1/4"	2 1/2"	\$7.70

New Britain

MUSHROOM DOLLY BLOCK

This type of dolly is well-liked because of its hand hold. It is easy to hold when dinging in the edges of running boards, etc.

Number	Weight	Length	Width	List Price
DB-12	2 lbs. 10 oz.	3"	2 ³ / ₈ "	\$4.45

HEEL DOLLY BLOCK

The design of this dolly makes it very adaptable in corners and wide radii.

Number	Weight	Length	Width	Thickness	List Price
DB-6	2 1/2 lbs.	3 1/8"	2 3/8"	1 ¹ / ₁₆ "	\$3.40

SPOON DOLLY BLOCK

A dolly block with an extension handle for use in places that cannot be reached with the hand. Has great strength and can be used as a forming and calking tool in the extreme lower sections of cowl, doors, quarter-panels, and lower trunk panels.

Number	Weight	Length	Face	List Price
DB-13	3 1/2 lbs.	14"	2 1/2" x 1" x 3"	\$4.55

BODY CUTTING CHISELS

Whenever you need a long reach chisel, you will find this new design to be without equal. For body work it has the ability to get in tight places due to its special beveled offset edge, and it will cut through body steel, rivets, or wood with equal success.

Number	Size of Stock	Width of Blade	Weight	Length Overall	List Price

New Britain

General Purpose Spoons

These New Britain Spoons are hammer forged from alloy spring steel, correctly tempered and working faces ground and full polished.

LONG OFFSET BLADE SPOON

A long offset blade gives powerful leverage under fender and body brackets. For use on all concave panels.

Number	Weight	Face	Overall	Packed 1/2 doz.	List Price
SP-9	7 oz.	1 1/4" x 3 3/16"	8 1/8"	5 lbs.	\$1.90

LOW CROWN DINGING SPOON

Used for all flat and convex panels. This includes the high crown, medium crown, and low crown panels.

Number	Weight	Face	Overall	List Price
SP-10	11 oz.	2" x 4 5/16"	10"	\$2.95

LONG TURRET TOP SPOON

This is a strong rugged tool built to withstand severe usage. Can be used for driving, as a pry, or as offset dolly for dinging. End of blade has medium calking face.

Number	Weight	Face	Handle	Overall	List Price
SP-11	3 1/2 lbs.	1 7/8" x 5 1/4" x 3/16"	1 1/8"	10"	\$4.55

EXTRA HIGH CROWN CALKING AND DRIVING SPOON

Particularly adaptable for driving up and calking damaged header panels, windshield posts, and cowl corners. Can also be used as an anvil for dinging.

Number	Weight	Face	Handle	Overall	List Price
SP-12	3 1/2 lbs.	5 1/4" x 1 7/8" x 3/16"	1 1/8"	10"	\$4.55

DOOR AND PANEL SPOON

This spoon will also be found very useful for doors and side panels, especially in close quarters.

Number	Weight	Width Blade	Length Blade	Diam. Hdle.	Packed 1/2 doz.	List Price
SP-7	2 3/4 lbs.	1 3/4"	5 1/2"	7/8"	9 1/2 lbs.	\$4.50

WIDE PANEL SPOON

Especially practical for removing dents from doors, side panels, under braces and on turret tops.

Number	Weight	Width Blade	Length Blade	Overall	Packed 1/2 doz.	List Price
SP-6	1 3/4 lbs.	2"	7"	10 1/2"	9 lbs.	\$4.35

WIDE BLADE SPOON

Useful for all around work. Slightly crowned face which is ground and full polished.

Number	Weight	Width Blade	Length Blade	Overall	Packed 1/2 doz.	List Price
SP-5	1 lb.	2"	7"	10 1/2"	6 3/8 lbs.	\$2.70

New Britain

Drop Forged Calking Irons

These New Britain Calking Irons will furnish a means of accurately transmitting a hammer blow to a desired point, such as the inside corner of a flange, inside beading or moulding, or the face of a flange. Ill-directed hammer blows will cause more work instead of repairing the damage, when directed at the above-mentioned places.

MEDIUM CALKING IRON

Has rounded working face for use inside mouldings. Will reshape any damaged moulding or flange.

Number	Weight	Face Radius	Overall Length	List Price
SP-13	14 oz.	1 3/4" x 1/8"	7"	\$1.90

OFFSET FENDER FLANGE CALKING IRON

Commonly used for fender damage where the wheel opening has been hit directly on the flanged edge by the bumper of another car. The bumper drives the flanged edge back into the skirt of the fender, but this damage is easily repaired with the SP-14 Tool. It is not necessary to remove the wheel. One end is grooved for use on fenders which have a wire beading in the flange.

Number	Weight	Face Radius	Overall Length	List Price
SP-14	3 1/2 lbs.	1 3/4" x 1/8"	17"	\$5.05

THE FLANGE TOOL

Straightens flanged edges of fenders and running boards. One end is forged into a thin pry spoon.

Number	Weight	Width Blade	Length Blade	Packed 1/2 doz.	List Price
SP-8	2 lbs.	1 1/2"	16"	13 lbs.	\$3.35

THE PANEL CUTTER

When necessary to remove torn metal from fenders or panels, or portions of severely dented roofs, a panel cutter is needed. Simply make a wedge slit with tip end, then fit the cutter flush to the metal in the slit, apply hammer to other end and cut to line.

Number	Weight	Octagon Handle	Overall Length	List Price
SP-16	8 oz.	1/2"	8 1/2"	\$2.65

FENDER FLANGE PLIERS

For clamping a broken fender flange while welding. Also used for holding reinforcements or new panels in place until tack welded.

Number	Weight	Overall Length	List Price
SP-15	1 lb.	11"	\$3.20

FENDER BOLT HOLDER

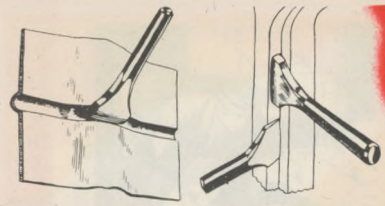

It could almost be called a Portable Vise. When fenders on cars which have seen hard service have to be taken apart, there is no tool which will take the place of this specially designed bolt plier. Packed individually.

Number	Weight	Length	List Price
M-252	13 oz.	12"	\$3.10

DOOR FERRULE PLIERS

Making money on fender work requires, first of all, the right tools for the purpose. Removing Door Ferrules is a tedious job unless you have this specially designed tool which removes them safely and easily. Packed individually.

Number	Weight	Length	List Price
M-452	6 oz.	8"	\$2.75

Forged Brake Tools

OPEN END BRAKE WRENCHES

Here at last is a tool that has been specially designed for the difficult purpose of working on all types of brakes where an open end wrench can possibly be used. It has the thinnest head and slimmest handle ever devised. Its unusual angle combination of 15° and 60° makes it possible to get 24 different "bites" on a nut in a 360° circle. Once you have used this remarkable new tool, you will never again use obstruction right angle or any other type of old-fashioned angle open ends.

New Britain Forged Brake Tools

STEELDRAULIC BRAKE PLIERS

For work on steeldraulic brakes, there is no tool to quickly turn out the job excepting the pliers especially designed with curved handles for this purpose.

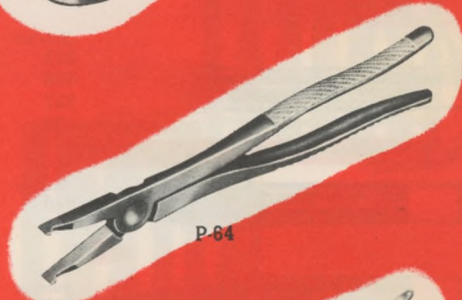

Number	Length	Weight	List Price
P-55	5¾"	6 oz.	\$2.95

LOCK RING PLIERS

Great leverage combined with the ability to get into tight places is required to snap lock rings and to spread other horseshoe types of brake keys. This plier will perform the job quickly on every type of fan puller shafts wherever lock rings are found.

Number	Length	Weight	List Price
P-64	8"	12 oz.	\$2.80

BRAKE SPRING PLIERS, 9"

On close work, this 9" size will prove to be an invaluable addition to any brake tool set. Cadmium Plated.

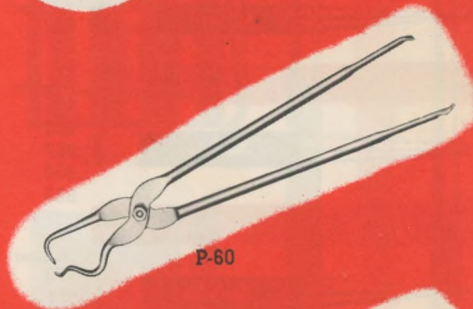

Number	Size	Packed One	List Price
P-62	9"	6 oz.	\$2.50

BRAKE SPRING PLIERS, 14"

The most widely used type of brake spring plier. It will handle most of the cars on the market and it will take care of Ford brakes, as well as other passenger cars. Equipped with notched ends, to handle some adjustments as well as pulling cotter pins. Cadmium Plated.

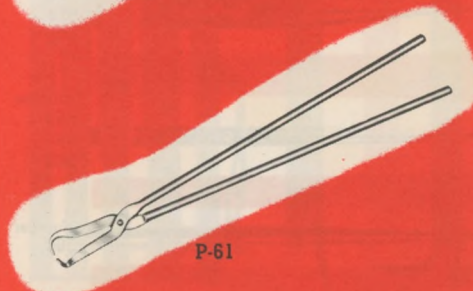

Number	Size	Packed One	List Price
P-60	14"	13 oz.	\$4.60

BRAKE SPRING PLIERS, 24"

A heavy duty tong for handling the largest truck jobs. Provides tremendous leverage and it has all the strength required to do the most difficult jobs. Cadmium Plated.

Number	Size	Packed One	List Price
P-61	24"	40 oz.	\$8.15

New Britain Chisels and Punches

Tools designed to "take it." Every New Britain Chisel is carefully heat treated to insure against either being too hard or too soft. All of these tools can be resharpened. Great care has been taken in designing the cutting edge so that it will remain sharp under heavy wear and care should be taken in redressing.

New Britain

Hack Saw Blades and Frames

A Complete Line for Every Purpose

NEW BRITAIN HIGH SPEED BLADES

A Molybdenum alloy blade which will out-perform anything you have ever used before. It is especially designed for automotive work where "Moly" has earned its reputation as the finest cutting combination known for modern requirements. Use it with confidence for cutting nickel, high carbon steel and other tough alloys. Its wearing and cutting qualities will prove it to be the most economical blade to use for every purpose.

LOW ANGLE HACK SAW FRAME

For countless jobs around the shop such as pistons and heater installations, this saw is invaluable. It comes equipped with a waveset 10" blade. However, any blade can be used in replacement and it is especially useful because broken blades can be fitted into it and they work equally as well as whole blades.

Number	Wt. Per Box	Length	Packed Per Box	List Price
M-192	48 oz.	13"	1/2 doz.	\$1.75

ADJUSTABLE HACK SAW FRAME

For heavy work nothing will do but a solid frame. If the frame gives even slightly, a high speed blade must break. It is therefore most economical to always use a frame that has the construction such as this one to insure efficient operation. Equipped with a steel pistol grip. It is adjustable for 8" to 12" blades.

Number	Wt. Per Box	Length	Packed Per Box	List Price

New Britain Hammers

BALL PEIN HAMMERS

The special heat treatment which these hammers receive insures against their chipping. They are all drop forged and fitted with handles that are balanced to suit the most discriminating user.

Number	Ounces	Size	Overall	Packed 1/2 doz.	List Price

GASKET HAMMERS

When a small solid hammer is needed, there is nothing that will take its place. These Gasket Hammers are needed to do one job well and their delicate balance will recommend them to all who do fine work.

Number	Ounces	Size	Overall	Packed 1/2 doz.	List Price
H-2	2	7/0	10"	1 1/4 lbs.	\$1.90
H-3	3 1/2	6/0	11"	2 lbs.	1.75

SOFT FACE HAMMERS

Made from almost indestructible Pyralin plastic. An extra quality Hickory handle and a shock-absorbing metal base combine to make them the favorite for almost all mechanics today. The heads will never crack or split. When they do gradually wear out, it is possible to quickly replace them with the extra tips. The new large 38 oz. size is particularly suited for tire and fender work and it has gained wide acceptance for this use.

72 Piece Set

Favorite Tool Set

Until you have owned a tool box with a drawer in it, you will not appreciate the convenience of having a place for your micrometer, etc. where other tools cannot be dropped on them. No expense has been spared in building this box. It has the desirable piano hinge construction together with a tote tray and a full length handle. The 72 pieces which comprise the assortment are as follows:

New Britain Super-Service Tool Set

Many mechanics periodically sell their complete set of tools to some apprentice. Such mechanics often purchase a complete outfit and this set contains all of the tools required for most of the jobs which will come into any shop. Depending upon whether the buyer specializes in Ford work, Ignition, Brakes, etc., this set can be increased with special tools to make it really a super-service set.

New Britain

Portable Tool Cabinets

Designed to increase the efficiency of any machine shop or garage where they are used. Especially in large shops where the work may be done a long distance from the bench, it is very convenient to be able to roll a complete tool cabinet out to the job.

14763

SENIOR PORTABLE TOOL CABINET

With the New Britain Portable Cabinet all the tools required can be rolled to the job anywhere at once. If you also have one of the No. 6151T sets, there will be no need to return for additional tools. No. 14763 Cabinet and Tool Chest complete offer an ideal place to keep any and all tools, where they can be locked up safely and ready to roll at a moment's notice. The No. 14764 Tool Chest is 24" long, 11½" high and 9¾" wide. It contains an ample Tote Tray and three removable drawers. The Portable Cabinet is 25" high, 24½" wide by 14" deep, with a place on the top for the Tool Chest and additional room to lay tools or machine parts. Inside the Cabinet are three large trays. Tool Chest has padlock hasp, and Cabinet a pin tumbler cylinder lock, individually keyed.

Number	Std. Pkg.	Ship. Wgt.	List Price
14763 (complete)	One	88 lbs.	\$78.30
14764 tool chest	One	45 lbs.	40.60

14850

JUNIOR PORTABLE TOOL CABINET

The New Britain Junior Portable Tool Cabinet has all the advantages and possibilities that are found in the Senior Cabinet. The only difference is the size. The Junior Cabinet is 25" high, 20" wide, 14" deep. Not only does this type of Cabinet effect a decided saving in time, money and tools, but it advertises the progressiveness of a shop or garage. An assurance that modern cars and their repairs can be safely entrusted to mechanics whose tools and equipment are equally modern. While this cabinet is particularly designed as a vehicle for the No. 6072T Wrench Set, it has equal value if your tool equipment is satisfactory, because of its safety and convenience. Both Tool Chest and Cabinet have padlock hasps to take any standard lock.

Number	Std. Pkg.	Ship. Wgt.	List Price

New Britain

Master Tool Set

A great many mechanics have been consulted in designing this set. The ideal of having every tool any mechanic will ever need in a set is probably impossible. This assortment, however, includes practically everything that you will ever need for 98% of all the jobs which come into any garage. Check over the careful selection of non-duplicating items and compare the triple chrome finish of these New Britain sockets and handles. Here is a set that will mark your shop as one that is well equipped and it will pay to keep this handsome tool box and its contents in a prominent place where your customers can get a look at your equipment.

Large Heavy Steel Box (24" x 11 $\frac{5}{8}$ " x 9 $\frac{3}{8}$ ")

No. 6151T 151 Pc. Set Shipping Weight 134 lbs. (complete with box) List Price \$274.50

If ordered separately, box price is List Price \$31.90

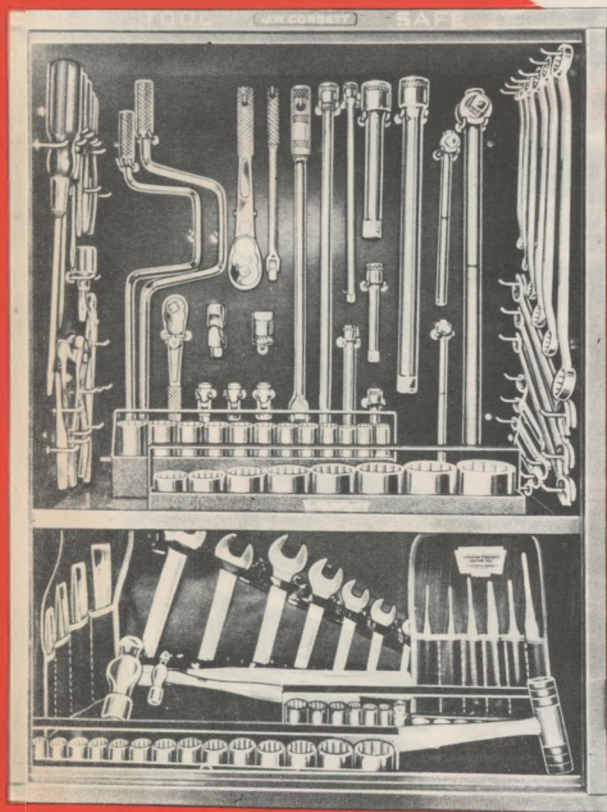

Assortment of tools which go with Set No. 6151T is Master Tool Assortment No. 156, listed on Page No. 50.

New Britain

Specialized Grease Tools

We will design a special grease board or complete service station tool assortment upon request. A selection of the Box Ends together with the New Britain extra thin Open Ends, Angle Wrenches and Tire Tools make a perfect combination for speedy service work.

ONE-MAN GREASE BAR

Made from $\frac{3}{4}$ " Octagon Steel and designed for freeing shackles that cannot be reached with a straight bar. The 25° Fork Angle makes it ideal for use on both rear and front springs. Packed individually.

Number	Length	Weight	List Price
NR-323	28"	4½ lbs.	\$3.50

90° ANGLE GREASE BAR

Gets at all front springs easily and its $\frac{3}{4}$ " Octagon Steel construction insures more power than you will ever need. Packed individually.

Number	Length	Weight	List Price
NR-340	20"	3½ lbs.	\$2.55

GREASE RETAINER AND HUB CAP REMOVER

If you have had trouble in removing Ford grease retainers, you will appreciate this new tool. It will remove all makes of grease retainers and, in addition, all styles and designs of hub caps and dust covers. It can also be used for removing front wheel bearings. Packed individually.

Number	Length Overall	Weight	List Price
NR-330	16"	1 lb.	\$3.55

MULTI-PURPOSE DRAIN PLUG WRENCH

Specially drop forged so that the ten fittings on this tool are all sturdy and will not twist off. Packed individually.

Number	Length	Weight	List Price
NR-314	9"	15 oz.	\$2.25

GENERAL DRAIN PLUG WRENCH

Makes obsolete most of the drain plug wrenches on the market. This tool, plus a No. NR-323 will service practically all of the cars on the road. The No. R-10 will handle all Ford, General Motors and Chrysler products. It is drop forged and not to be confused with any similar designs. Packed individually.

Number	Length	Weight	List Price
R-10	9"	1¼ lbs.	\$2.60

UNIVERSAL DRAIN PLUG WRENCH

Will take care of most of the fittings served by the more expensive No. R-10. This tool is a stamping and will render good service for a reasonable length of time.

Number	Length	Weight	List Price
R-50	10"	½ lb.	\$.85

ALEMITE GREASE FITTING SOCKET

Fits all $\frac{1}{2}$ " Square Drive handles and is an invaluable tool for removing Alemite grease fittings.

Number	Length	Std. Pkg.	Ship. Wgt. Pkg.	List Price
NS-94	1½"	10	1½ lbs.	\$.70

DEGREASING KNIFE

Used widely by grease men, but also borrowed by every mechanic in the shop because it speedily strips off grease from motors as well as chassis.

Number	Length	Std. Pkg.	Wgt. per Pkg.	List Price
K-6	7"	12	½ lb.	\$.38

GREASE FITTING TOOLS

Does the work of several tools and is convenient because you have the different wrenches all in one. Fits either Alemite or Zerk and you can use them for threading or extracting. Packed individually.

Number	Size	Wgt. Ea.	List Price

Special Miscellaneous Tools

TAPPET ADJUSTING TOOL

This unique tool together with a feeler gauge enables you to adjust the valve clearance on rocker arm tappet adjusting jobs. Works while the motor is running and therefore insures the best adjustment in the shortest possible time. For all cars with overhead valves.

Number	Weight	List Price
M-200	10 oz.	\$1.90

TRICO WINDSHIELD WIPER WRENCH

Made with a double end so that it will take care of practically all adjustments for Trico Windshield Wipers on all makes of cars.

Number	Length	Weight	List Price
M-190	3 1/4"	3 oz.	\$1.15

CHRYSLER OVER-DRIVE PLIERS

Garages doing Chrysler work cannot afford to be without this tool. It is designed to remove the lock rings from the gears which are inset so deeply in the Chrysler Over-Drive system that no other tool will adequately reach them.

Number	Length	Weight	List Price
M-450	8"	12 oz.	\$2.75

BUICK SPARK PLUG SOCKET

The regular New Britain extra-deep socket in the $\frac{13}{16}$ " size will take care of the $\frac{13}{16}$ " Buick Spark Plugs. The $\frac{7}{8}$ " Buick Spark Plug, however, has to be fitted into such a restricted opening that it is necessary to use this specially ground socket which will fit it perfectly. It must not be used on shackle bolts, but the regular $\frac{7}{8}$ " extra deep is intended for that purpose. Broached 12 Point.

Number	Size	Std. Pkg.	Wgt. per Pkg.	List Price
NTD-28B	$\frac{7}{8}$ "	10	4 lbs. 1 oz.	\$2.10

PACKARD SPARK PLUG SOCKETS

Specially designed to take care of the Packard and other cars using the new midjet plugs. They are strong enough so that they can be used on any other work requiring an extra-deep socket. NTD-18 is for 10 M/M A. C. Spark Plugs. NTD-22 is for 10 M/M Champion Spark Plugs.

Number	Size	Std. Pkg.	Wgt. per Pkg.	List Price
NTD-18	$\frac{11}{16}$ "	10	2 lbs. 13 oz.	\$1.40
NTD-22	$\frac{11}{16}$ "	10	2 lbs. 14 oz.	1.50

BRAKE PEDAL DEPRESSOR

Makes a one-man job out of brake adjustments. It will hold the brake pedal fully depressed or at any other desired position. It also has many other uses around a car where a tool providing fixed positions is of service. Adjustable from 15 to 26".

Number	Length		Wgt. Ea.	List Price
	Closed	Open		
M-400	15"	26"	2 3/4 lbs.	\$4.90

New Britain

General Use Tools

BODY WORKERS' SNIPS

An extra heavy duty snip for use on body work. It will cut cleanly and the blades are made from specially tempered steel which will outwear several pairs of ordinary tinner's snips..

Number	Length	Weight	List Price
M-470	12"	1 1/2 lbs.	\$3.65

PACKING HOOK

Has no equal for many uses around the shop. It cannot be used for pulling cotter pins, but it is ideal for pulling out packing from water pumps and other soft materials that cannot be reached in any other way.

Number	Length	Weight	List Price
M-118	8"	2 oz.	\$1.35

FLEXIBLE CARBON SCRAPER

A unique tool that is made from a number of different segments which go after carbon independently. Will hit the low spots as well as the high places and do an efficient job.

Number	Length	Weight	List Price
P-204	9"	5 oz.	\$.95

GASKET SCRAPER

Has a 1 1/16" wide flat blade which will remove shellacked gaskets and other materials where a perfectly smooth surface is desired afterwards.

Number	Length	Weight	List Price
M-134	11"	6 oz.	\$2.15

AXLE RETHRADING DIES

If you have had trouble with burred and damaged threads, you will approve of this tool. It reconditions abused threads so that even jobs that look hopeless can often be reclaimed. To operate the rethreader — simply place the die over the thread. Turn the handle to tighten the die and then back it off. Because the dies are made from high grade tool steel, they will withstand a lot of wear. Also, because of the unique construction it is possible to tighten the die evenly at all times. This adds to the life of the die and makes it workable after it has started to wear. Finished in Cadmium Plate with a black enamelled frame. Both sets packed in black enamel case with sliding closure.

Number	Length	Size Threads for Passenger Cars	Weight	List Price
M-460	11"	5/8" die 18 Thread	3 lbs.	\$13.65
		7/8" die 14 Thread		
		3/4" die 16 Thread

Special Miscellaneous Tools

M-250

SPARK PLUG HOLE THREAD RETRACER

One end is designed to take care of 14 M/M and the other 18 M/M Threads. It will quickly and accurately chase the threads, removing the corrosion on Aluminum heads and the dirt misalignment which occurs on spark plug openings in all heads.

Number	Length	Weight	List Price
M-250	4"	5½ oz.	\$2.40

T-120
T-121

SELF-FEEDING TUBE CUTTER

One of the most ingenious tools ever devised. Handles all sizes of tube, whether copper, brass or lead from ¼" to ¾" in diameter. After the tube is inserted in the cutter and tightened it does not have to be reset. The tension in the frame automatically cuts deeper on each turn until the tube is severed. The extra blade for this cutter is No. T-121.

Number	Length	Weight	List Price
T-120	4½"	3 oz.	\$2.00
T-121			.35

FT-10

FLARING TOOL

The most compact set of flaring tools ever designed is one of the New Britain Self-Feeding Tube Cutters and a New Britain Flaring Tool Number FT-10. The Flaring Tool takes care of no less than seven sizes, ⅜", ½", ⅝", ¾", 1", 1½", 2". The design of the tool makes for a quick job with accurately flared openings.

Number	Length	Weight	List Price
FT-10	6"	1 lb. 8 oz.	\$5.95

New Britain Piston and Ring Service Tools

PISTON RING GROOVE CLEANER

Makes an easy job out of one that was formerly tedious and often injurious to the piston. A durable compensating spring controls pressure on the cutter. Cutter blades are sized $\frac{1}{8}$ "", $\frac{5}{32}$ "", $\frac{1}{4}$ "", $\frac{3}{8}$ "", $\frac{1}{2}$ "", $\frac{5}{8}$ "", $\frac{3}{4}$ "", $\frac{7}{8}$ ". Will fit all sizes pistons up to 6" diameter. Complete with cutter.

Number	Length	Weight	List Price
P-201	11½"	8 oz.	\$3.10

PISTON LAND REDUCING TOOL

Because Aluminum Pistons invariably "grow" under heavy use, this tool has been created to efficiently and accurately reduce the diameter to give the proper clearance and ring action. Handles all pistons up to 6" diameter.

Number	Length	Weight	List Price
P-202	11½"	8 oz.	\$3.10

CHAMFERING AND DRILLING TOOL

A scientifically designed chamfering tool which will successfully operate on all types of pistons. It cuts an exact 45° chamfer or bevel on the bottom edge of the oil ring groove. Use the drill jig for piloting a $\frac{3}{32}$ " drill so that the chamfer can be drilled without center punching. The drill jig holds a drill at the correct angle for drilling the Ford steel pistons in relieving the excess oil. Everyone doing ring jobs on Fords should have this precision device.

Number	Length	Weight	List Price
P-203	11½"	8 oz.	\$4.50

COMPLETE PISTON RECONDITIONING KIT

For the mechanic who is interested in a complete set of piston service tools here is the ideal arrangement. The one handle is interchangeable with a cleaner, cutter, land cutter and a chamfering cutter and the invaluable drill jig is furnished to make the set wholly complete.

Piston and Pin Service Tools

RATCHET PISTON RING COMPRESSOR

This new compressor has so many advantages that it must be used to really tell the story. It is built in proportion. The heavy spring steel is durable enough to tighten the stiffest piston rings. The ratchet teeth are specially hardened and the handle will stand up under steady use. Because it compresses the rings evenly, you can tighten it down without any fear of breakage. Handles all passenger cars and trucks with diameters of 2½" to 5".

Number	Weight	List Price
P-300	12 oz.	\$3.95

TRUCK AND DIESEL SIZE COMPRESSOR

Has unbelievable strength and compression power. Use it for pistons with diameters from 3½" to 7".

Number	Weight	List Price
P-350	1 lb.	\$5.25

STANDARD PISTON RING COMPRESSOR

This is the tool which has been used for many years with great success. It is the original device with the beads along the bottom which prevent the compressor from entering the cylinder with the piston. The brake is adjustable and it can be tightened down for almost any job. Capacity, 2½" to 5".

Number	Weight	List Price
P-200	12 oz.	\$1.90

TRUCK AND TRACTOR SIZE COMPRESSOR

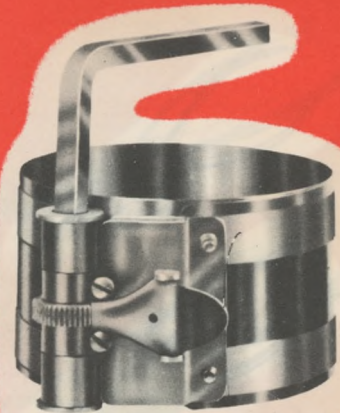

Made on the same principle as the No. P-200 and will handle trucks and tractors with diameters from 3½" to 7".

Number	Weight	List Price
P-206	1 lb.	\$3.00

FORD PISTON PIN INSERTER AND REMOVER

To secure perfect alignment of the piston pin you require a tool with a long pilot such as these New Britain Piston Pin Inserters. They work easily and you can drive the piston pin without any fear of damage. Replacing pins is as simple as inserting them and the only precaution is to see that the piston is heated before driving the pin in place. No. R-835 is for Ford A and AA, B and BB; No. R-837 for Ford V-8 Cars and Trucks except 60 H. P. and Mercury Cars.

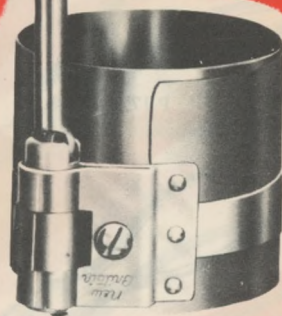

Number	Weight	List Price
R-835	1 lb. 10 oz.	\$3.05
R-837	14 oz.	2.15

New Britain Bernard Pattern Pliers

It's a long way around the world! Nevertheless, if you should make the journey and look into the tool cabinets of exacting mechanics in all lands, you would find Bernard Pattern Pliers wherever you might wander. Large Industrial concerns and Utilities specify these super pliers. Wherever exacting work and time schedules demand that jobs be done promptly, the question of initial price is unimportant. New Britain Bernard Pattern Pliers do cost more but they quickly pay for themselves in increased production.

LONG NOSE SIDECUTTING PLIERS

For some simple gripping jobs a low-priced plier will serve almost as well as a specially drop forged and heat treated product. However, for long reach work in any restricted corners, there is no choice about the tool to use. Even the best is not too good where enormous pressure must be exerted on sometimes less than a quarter of an inch of gripping surface. Here is a plier you will use and recommend. Temper blue finish, polished heads. Standard package, one in box.

Number	Size	Weight	List Price
P-582	6½"	5 oz.	\$4.90

FLUSH BOLT SIDECUTTER

Exclusive New Britain Bernard Pattern for the automotive field. The sidecutting jaws are real cutters. Because of the clearance on the gripping end, they can be resharpened indefinitely. Use them for gripping and holding on all your average work. Temper blue finish, polished heads. Standard Package, one in box.

Number	Size	Weight	List Price
P-400	7"	5 oz.	\$4.90

MEDIUM DIAGONAL PLIERS

Given special heat treatment to insure a cutting edge which will handle any wire in an automotive repair shop and yet be small enough for fine work. Temper blue finish, polished heads. Standard Package, one in box.

Number	Size	Weight	List Price
P-510	5½"	4½ oz.	\$4.90

LARGE DIAGONAL PLIERS

A real handful that permits tremendous leverage and will quickly and surely cut all of the wire that you will ever encounter. The cutting edges have been specially treated and individually tested before leaving the factory. Temper blue finish, polished heads. Standard Package, one in box.

Number	Size	Weight	List Price
P-500	7"	12 oz.	\$6.10

SPRING ACTION NIPPERS

If you do a lot of electrical work, you will appreciate this tool. The spring action produces a compound leverage on the cutting edge with the result that you can cut piano wire and other tough material without effort. Nickel plate finish. Standard Package, one in box.

Number	Size	Weight	List Price
P-177	5½"	4½ oz.	\$4.90

LINEMAN'S PLIERS

A new design in construction pliers developed in cooperation with Utilities Companies. You will appreciate its many advantages the moment you see and handle a pair of these heavy duty lined pliers. The nickel chrome rivets guarantee a permanent action that no amount of abuse or wear will destroy. Polished heads, temper blue handles. Standard Package, one in box.

Drop Forged Pliers

The result of many years' experience has been incorporated in the design and construction of these pliers. Great care has been taken to produce perfect balance that alone produces speedy work. Compared item for item, they will be found to be unsurpassed in their classes.

COMBINATION PLIERS

The general purpose tool for all types of work. Their drop forged construction assures rugged performance. Slip jaws plus handy wire cutters.

Number	Size	Finish	Capacity	Packed One	List Price
P-20	6"	Nickel	1"	8 oz.	\$1.10
P-21	6"	Satin Nickel	1"	8 oz.	.48

STRAIGHT THIN NOSE PLIERS

Can be used to excellent advantage on all kinds of small work, radio, electrical bench jobs, etc. Full finish nickel plated.

Number	Size	Finish	Capacity	Packed One	List Price
P-10	5"	Nickel	3/4"	4 oz.	\$.95
P-15	6"	Nickel	1"	6 oz.	1.05

SIDE CUTTING PLIERS

Combines tremendous gripping power with a cutting capacity equal to the average lineman pattern pliers. Full finish nickel plated.

Number	Size	Finish	Capacity	Packed One	List Price
P-25	6"	Nickel	1"	8 oz.	\$1.35

HEAVY DUTY GRIPPING PLIERS

For general purpose work where plenty of gripping power is needed. Grips like a pipe wrench. Has a three position adjustable slide joint. Full finish nickel plated.

Number	Size	Finish	Capacity	Packed One	List Price
P-35	8"	Nickel	1 1/2"	10 oz.	\$1.20

DIAGONAL CUTTING PLIERS

Very popular among automobile mechanics because the jaws are hardened to cut piano wire or choke wire. Finish polished head, gun metal handles.

Number	Size	Finish	Capacity	Packed One	List Price
P-45	6"	Polished	1 1/2"	5 oz.	\$2.20

HEAVY DUTY DIAGONAL CUTTING PLIERS

The sturdy construction, great cutting angle and spoon shaped jaws, make this a popular plier with mechanics. Finish polished head, gun metal handles.

Number	Size	Finish	Capacity	Packed One	List Price
P-50	7"	Pol. Head	1 1/2"	8 oz.	\$3.35

New Britain

Drop Forged Pliers

Specially designed pliers for special work are the demands of the modern mechanic. Difficult connections require tools which will exactly fit without injuring the work. The finest steels have been selected in the creation of these pliers.

BATTERY PLIERS

Designed expressly for battery and installation work. Grips the nuts firmly. Note the offset jaws which provide knuckle clearance. Finish Nickel Plated, Polished and Buffed Head.

Number	Size	Finish	Capacity	Packed One	List Price
P-40	8"	Nickel	1"	8 oz.	\$1.40

LOCK RING PLIERS

Also called horseshoe type key removers. Equipped with grooves on the outside of the jaws to prevent slipping. Spreads lock rings and makes their removal quick and certain.

Number	Size	Finish	Packed One	List Price
P-64	8"	Nickel	12 oz.	\$2.80

RADIO PLIERS

This new design will prove to be very handy for all types of electrical work as well as the tight places on car radios.

Number	Size	Finish	Packed One	List Price
P-16	6"	Satin	4 oz.	\$1.40

WATER PUMP PLIERS

Known as "Pump Pliers" but can be rightfully called "All Purpose Pliers." Teeth set at a backward (Pipe Wrench) angle. Has five adjustments with opening from 0 to 1 1/4". Nickel Plated.

Number	Size	Finish	Capacity	Packed One	List Price
P-30	9 1/2"	Nickel	1 1/4"	9 oz.	\$1.40

BULB PLIERS

Will pay for itself many times over because it prevents the breaking of bulbs by giving a safe grip on the metal base. Cadmium Plated.

Number	Size	Finish	Packed One	List Price
P-205	8"	Satin	5 oz.	\$.50

BRAKE SPRING PLIERS, 9"

Brake work can never be made easy. The correct tools, however, will speed it up. On close work, this 9" size will prove to be an invaluable addition to any brake tool set. Cadmium Plated.

Number	Size	Finish	Packed One	List Price
P-62	9"	Satin	6 oz.	\$2.50

BRAKE SPRING PLIERS, 14"

The most widely used type of brake spring plier. It will handle most of the cars on the market and it will take care of Ford brakes, as well as other passenger cars. Equipped with notched ends, to handle some adjustments as well as pulling cotter pins. Cadmium Plated.

Number	Size	Finish	Packed One	List Price
P-60	14"	Satin	13 oz.	\$4.60

BRAKE SPRING PLIERS, 24"

A heavy duty tong for handling the largest truck jobs. Provides tremendous leverage and it has all the strength required to do the most difficult jobs. Cadmium Plated.

Number	Size	Finish	Packed One	List Price
P-61	24"	Satin	40 oz.	\$8.15

New Britain

Wheel Hub Pullers

THE UNIVERSAL PULLER FOR ALL HUBS

First cost is of little importance in the purchase of a piece of equipment such as a Hub Puller. Because Trucks and Buses are losing money every hour which they spend off the road — time cannot be lost due to inefficient equipment for any repairs, particularly on wheels which are pulled so often on heavy duty vehicles. The real test of superiority of the New Britain Wheel Hub Puller over all others on the market can best be proven by pulling a hub where the puller must be spread from 6 to 8 inches apart. The New Britain Puller will not bend the hub bolts and the job can be done quickly and profitably.

The entire puller is drop forged. The wrench can be struck with a hammer where a shock blow is needed. Also used for pulling tractor flywheels or gears having cap screw holes in them.

Can also be used as a two jaw puller for wheels with four or six bolts. Just slide off one of the jaws and move the other in the groove so that you have a straight pull.

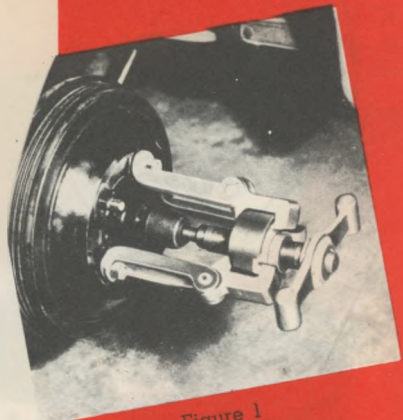

Figure 1

Figure 1 shows the New Britain Wheel Hub Puller in use on a drum with five bolts on the circle. Note that the tool rests squarely with the drum. Two of the pulling jaws have been spread around the center block to fit the other two studs.

Figure 2.

Figure 2. The simplicity of the Puller recommends it to all mechanics. Note how easily the third jaw is removed when pulling on a hub having 4 or 6 bolts so that only two jaws are needed.

Figure 3. Here is the Puller and the Special V-8 Ford Adapter in use on a Ford Drum. By using this adapter, it is impossible to spring the pressed steel drums out of alignment. NOTE: The No. P-107 Set of Three Special Heavy Truck Jaws are needed only on the very large Hub Bolts. The jaws have $\frac{13}{16}$ " holes in them to accommodate these over-sized jobs.

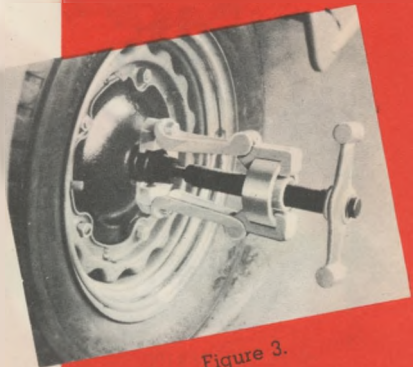

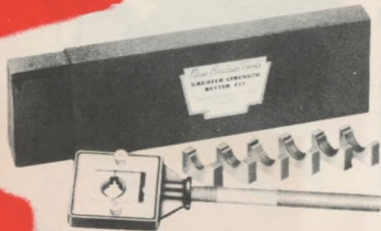

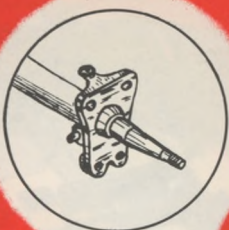

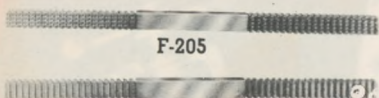

Figure 3.

Axle and Wheel Attachments

AXLE RETHRADING DIES

If you have had trouble with burred and damaged threads you will approve of this tool. It reconditions abused threads so that even jobs that look hopeless can often be reclaimed. To operate the rethreader — simply place the die over the thread. Turn the handle to tighten the die and then back it off. Because the dies are made from high grade tool steel they will withstand a lot of wear. Also because of the unique construction it is possible to tighten the die evenly at all times. This adds to the life of the die and makes it workable after it has started to wear. Finished in Cadmium Plate with a black enamelled frame. Both sets packed in black enamelled case with sliding closure.

M-460 Set includes all sizes for passenger cars:

- | | |
|--------------------------|--------------------|
| 3/4" die 18 Thread. | 3/4" die 16 Thread |
| 7/8" die 14 Thread. | 1" die 14 Thread |
| length 11" weight 3 lbs. | List Price \$13.65 |

M-461 Set includes all sizes for trucks:

- | | |
|--------------------------------|----------------------|
| 1 1/4" die 7 Thread. | 1 1/4" die 12 Thread |
| 1 1/2" die 6 Thread | 1 1/2" die 12 Thread |
| length 11" weight 3 lbs. 8 oz. | List Price \$15.40 |

AXLE RETHRADING FILES

You will never be without a pair of these files after you have tested their ability. Just a few strokes across slightly damaged threads will restore them to smooth working efficiency.

F-205 Axle rethreading file has eight thread sizes:

- | | |
|--|-------------------|
| 11, 12, 13, 14, 16, 18, 20, 24 threads to an inch. | List Price \$3.30 |

F-206 Axle rethreading file has the following thread sizes:

- | | |
|---|-------------------|
| 9, 10, 15, 16, 20, 26, 28, 32 threads to an inch. | List Price \$3.30 |
|---|-------------------|

FORD WHEEL PULLER

A sturdy wheel puller designed specially for pulling all Fords whether Model A, B, or V-8. First remove the hub cap, cotters and axle shaft nuts. The F-130 should then be attached to the groove in the hub. After tightening the center screws the hub and wheel can be removed together by simply tapping the center screw. Baked enamel finish.

F-130 Ford Wheel Puller Weight 4 lbs. List Price \$6.90

KNOCKOUT TYPE WHEEL PULLERS

Every precaution has been taken in the making of these pullers to be kind to the threads. First the threading is carefully done to insure an even fit. Holes have been drilled in each puller to allow air and grease to escape so that the puller can be turned well onto the axle.

Drive Shaft and Bearing Pullers

DRIVE SHAFT AND AXLE PULLER

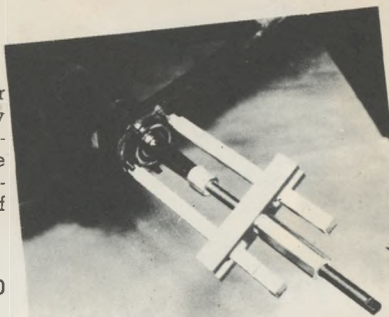

The complete set illustrated will take the place of many other tools which duplicate each other. Each of these tools has many uses with the result that the small investment required will permit a mechanic to tackle a long list of difficult work not possible with such a small expenditure otherwise. Yet every tool is carefully made and the toughness built into them assures you of their continued usefulness for a long time.

P-111 Set of Drive Shaft and Axle Pullers with Adaptors
weight 10 lbs. List price \$21.70

P-118 Set of Six adaptors:

P-112 $\frac{5}{8}$ " x 18. P-113 $\frac{3}{4}$ " x 16. P-114 $\frac{7}{8}$ " x 14

P-126

IMPULSE NEUTRALIZER PULLER

Can be most efficiently used by using the screw from the Drive Shaft Puller in set P-111. This small puller is invaluable in saving time when removing Impulse Neutralizers. Best of all a set of the P-111 should be purchased and then used in combination with this and other tools on countless jobs, such as Fan Pulleys, etc.

P-126 Impulse Neutralizer Puller, $1\frac{1}{2}$ lbs. List price \$10.15

P-120

TAPERED BEARING CUP PULLER

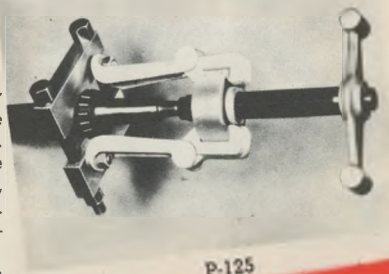

Here is a puller that is really shaped right. It fits inside of bearings and the tighter you pull the more firmly it holds. Because of its broad range it replaces several other numbers and this one puller will fit all of the bearing cups that you will encounter. Handles all bearings from $1\frac{3}{4}$ " to 5".

P-120 Tapered Bearing Cup Puller.
weight $3\frac{1}{2}$ lbs. List price \$19.40

TAPERED BEARING SPLITTER

Another unique and exclusive New Britain design. Not only will this splitter perform every job of separating that you have to do but it will do it surely and stand up under heavy work. The two holes which are drilled in opposite corners permit the use of studs to attach to gear pullers. In this way ball races, generator gears and other small work can be correctly handled. Yet the range of the splitter is so great that it will handle bearings up to $4\frac{1}{2}$ " outside diameter.

P-125 Bearing Splitter, weight 7 lbs. List price \$19.40

P-125

New Britain

Special Gear Pullers

It's easy to remove any steering wheel on old or new cars with New Britain Steering Wheel Pullers. They are interchangeable and provide the correct angle to pull steering wheels without damage to the finish.

COMBINATION STEERING WHEEL SET

For pulling either two-spoke, three-spoke, or four-spoke steering wheels. By providing two types of blocks, it is possible to use the same jaws, threaded screw, ring and nipple. By assembling the three jaws in the three-way block, you can quickly get at any three spoke wheel. Then take two of the jaws and the two-way block and you have the correct puller for a two or four spoke wheel without any unnecessary gadgets or attachments to get in the way. All of the New Britain Steering Wheel Puller Parts are interchangeable with the standard duty gear pullers on Page No. 65.

Number	Weight	List Price
P-605	4 lbs.	\$22.30

BABY GEAR PULLER

No set of garage tools is complete without this puller. Used for battery terminals, generators and countless small jobs where a versatile puller is needed which will pull from either the outside or the inside of the gear. The locking screws hold it securely on the work and it has an external capacity of 3" and an internal capacity of from 5" down to 2". The fingers are 2 3/4" under the cross arm and its sturdy drop forged construction insures good performance.

Number	Weight	List Price
P-130	2 lbs.	\$3.95

PITMAN ARM OR STEERING ARM PULLER

A tool which has wide use because it fills a very certain need. Pulling steering arms or Pitman arms is often a tedious job unless this tool is used. As illustrated, its construction is such that the jaws can be locked tightly around the arm and there is no chance of slippage when the pressure is applied by turning down the thread screw.

Number	Weight	List Price
M-265	4 lbs.	\$12.50

PITMAN ARM WEDGE

One of the most widely used tools for driving off Pitman arms and many other jobs where a drop forged extra-strength wedge is required. Its tapered nose permits entry into the tightest places and its sturdy construction permits its being hammered.

Number	Length	Weight	List Price
M-262	11"	2 lbs.	\$5.75

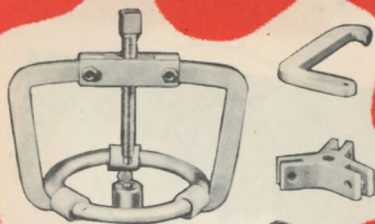

PERCH STUD PULLER

A puller which will bring out the assemblies that get wedged in. Extra strong because it is made for extra heavy service. Drop forged for durability and designed for convenient handling.

New Britain Super Grip Gear Pullers 6" Capacity

STANDARD DUTY GEAR PULLER

Look what this puller set does ! !

1. Pulls gears of all sizes up to 6" in diameter.
2. Can be used either as a two or three jaw puller.
3. Pulls clutch pilot bearings using No. P-153 jaws and No. P-155 Slide Hammer.
4. Pulls Ford V-8 Valve Guide Locks with Adaptor No. P-156 and No. P-155 Slide Hammer.
5. Pulls Steering wheels on practically all cars without damage to wheels using assortment No. P-154 which consists of special jaws, ring, and nipple for the end of the puller screw.
6. In all pulling positions the jaws are locked on the job and cannot slip.

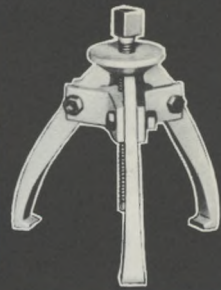

This New Britain Puller Set will save you money since it takes the place of many pullers which in the past have been sold separately. There is no need to buy special steering wheel pullers nor pullers to remove V-8 Valve Guide Locks. Clutch Pilot bearings of all sizes found in cars and trucks are easily handled.

All parts of the set are interchangeable. With block No. P-151 and P-152 the puller can be used for two jaw or three jaw pulling operations. With the standard jaws, as illustrated, (No. P-149) this puller has a reach under the block of $3\frac{1}{2}$ " and a gear capacity of 6". Blocks and jaws are drop forged from chrome molybdenum steel and will stand abuse. The screw is $\frac{1}{2}$ " in diameter and $5\frac{1}{2}$ " long. Since it is made from special steel and carefully heat treated it will give years of service.

New Britain Super Grip Gear Pullers 8½" Capacity

HEAVY DUTY GEAR PULLER

The Gear Pullers and parts illustrated on this page will handle the majority of all pulling jobs a garage may be called upon to do. Jaws and blocks are drop forged from chrome molybdenum steel and oil tempered to stand hard service.

All the parts illustrated are interchangeable. Inside bearings and sleeves may be pulled using the inside pulling jaws No. P-147 and the slide hammer puller No. P-148. The set is universal and handles a large range of work since it is possible to assemble the puller for three jaw pulling or two jaw pulling operations.

Like other New Britain Pullers these tools are equipped with the positive jaw locking cone which adjusts the jaws to engage gears up to 8½" in diameter and locks them in position to prevent any chance of slipping. When using the inside jaws No. P-147 the cone is turned upside down and in this position forces the jaws outward to prevent their slipping when pulling inside bearings, sleeves, grease retainers, etc.

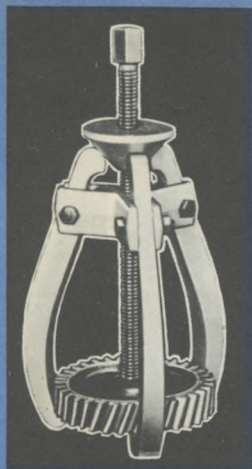

By using the two-way block No. P-144 and the puller screw a very suitable tool for pulling impulse neutralizers and timing gears is formed.

Jaws No. P-145 are wide, thin, jaws and are used where little space is available to get behind gears. Jaws No. P-146 are used where extra pulling strength is needed and where there is sufficient room to permit the use of a heavier built set of jaws.

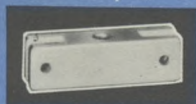

The screw is ⅝" in diameter, 9½" long. It has a fine thread and is manufactured from tested tool steel and properly tempered.

Those shops who are looking for puller sets to handle a wide range of work and pullers which will handle inside pulling as well as outside pulling operations with a positive grip in all cases will find these pullers the best to purchase.

Super Grip Gear Pullers

8½" to 18" Capacity

EXTRA HEAVY DUTY GEAR PULLER

These Pullers are made in line with the New Britain policy of having the widest range of sizes with the smallest number of tools.

These 12" to 18" diameter Gear Capacity sizes are designed for truck and bus work and pulling gears and pulleys on farm implements and tractors. They also have a wide field in many industrial plants.

The Jaws and Blocks are drop forged from the toughest alloy steel. The screw is 15" long and finely threaded to insure easy turning and the ability to stand up under hard use.

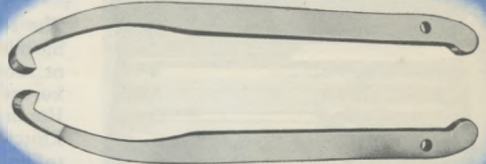

The extra length Jaws are interchangeable so that the purchase of only one block is necessary. They have a reach of 18" under the block and will actually handle an 18" diameter gear.

Like all New Britain Super Grip Pullers, they are equipped with the special adjustable cone. This insures an equal grip on any gear and is not only safer but prolongs the life of the puller by always equalizing the pulling strain.

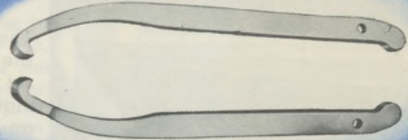

Number		Std. Weight	List Price

New Britain

Reamers, Hones, Bushing Set

UNIVERSAL CYLINDER RIDGE REAMER

No one has any doubt as to the cause of many noisy motors. Eliminating the Cylinder Ridge factor has given a lot of trouble in the past. The New Britain expanding type Reamer is so constructed that it is not necessary to remove the head studs from the block. By pressing down on the knob, supporting lugs are held firmly in place against the top of the block. For cars with overhead valves the lugs are replaced by small plates so that the tool rests on top of the piston while reaming. Start off right with a complete New Britain Reamer Set. It contains three blades with strips to ream $2\frac{9}{16}$ " to $3\frac{3}{4}$ " and another set of three blades with strips to ream $3\frac{3}{4}$ " to $4\frac{7}{8}$ ". A set of filler strips and an operating knob is also furnished. The whole unit is packed in a black antique finished box. Packed individually.

Number	Size of Box	Standard Wgt.	List Price
R-173	5½" x 4" x 3½"	4 lbs. 10 oz.	\$18.70

GENERAL PURPOSE HONING SET

The recipe for good results with this precision Honing Set demands only that you provide it with any lathe, drill, drill press, or reaming machine turning from 50 to 150 R.P.M.'s, then use kerosene or machine oil freely and go to work. Use it for all Honing, Lapping and Burnishing on Piston Pins, Steering Knuckles, etc. The set is complete and includes 3 Hones, 9 refills, 3 shims, and 3 burnishers. Packed individually.

Number	Size of Box	Standard Wgt.	List Price
R-200	10" x 5¼" x 1½"	4 lbs. 12 oz.	\$25.85

HYDRAULIC BRAKE CYLINDER HONE

The goal of securing a range wide enough to cover all pleasure cars and trucks has been achieved in this outfit. One set of blades expands $\frac{1}{16}$ of an inch in each set of slots so that moving them from one set of slots to another gives $\frac{1}{8}$ of an inch expansion. Therefore, the three sets of blades in this manner give $\frac{3}{8}$ of an inch expansion in each body. The complete set has three bodies so that the range is from $\frac{3}{4}$ " to $1\frac{1}{8}$ ". Packed individually.

Number	Size of Box	Standard Wgt.	List Price
R-925	9¾" x 4¼" x 1½"	4 lbs. 12 oz.	\$31.00

BUSHING REMOVER AND REPLACING SET

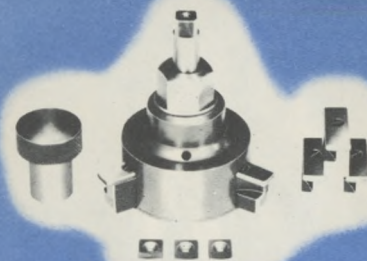

Unless you have every size of Bushing drivers for all of the cars on the road, you are going to be caught short some day. This is the most complete set on the market and with it on hand you can feel equipped for any job of this type. Packed individually.

Adjustable Valve Stem Guide Cleaner

Small jobs often make the most trouble. Certainly none have been more difficult than the task of removing the residue from the new gasolines which collects in Valve Guides. These new patented Guides are adjustable so that you can make them the exact size needed to clean out whatever has corroded in the hole. Two sizes take care of all standard work with two specials for the V-60 and V-85.

New Britain

Wood Handle Screw Drivers

New Britain Wood Handle Screw Drivers are intended for the mechanic who is particular about his tools. They are made by skilled workmen whose business for many years has been making better screw drivers, and they use only the best of carefully selected materials.

STANDARD BLADE — WOOD HANDLE

A general purpose screw driver of exceptional strength and utility. Appreciated by the mechanic who wants a good quality tool to turn screws with, and not to use as a cold chisel or pry bar.

Number	Size of Blade	Width of Tip	Overall	Packed 1/2 Doz.	List Price

New Britain Screw Drivers

GENERAL PURPOSE ALL-STEEL SCREW DRIVERS

In all the world no such Screw Drivers as these! Until you have handled the New Britain General Purpose All-Steel Screw Driver, you will never appreciate how good a screw driver can be. Drop forged and, excepting for electrical work, they are without an equal because they are strong and as tough as a hammer. They can be used as pry bars and when you have a tight machine cap screw to turn, you can safely gain leverage by using a wrench on the blade. Yet, the blades are thin enough to be used on most screws and on all of the slotted engine connections where a sturdy screw driver has been needed for so long. Buy every New Britain Screw Driver with the assurance that it is a carefully engineered screw driver for the purpose.

Number	Size Blade	Width of Tip	Overall	Weight lbs.	oz.	List Price
D-20½	5"	⅜"	9"	8		\$2.15
D-21	5"	19/32"	9½"	9½		2.30
D-22	5"	¾"	10½"	1		2.75

SCREW HOLDING SCREW DRIVER

For starting or taking out screws in difficult places. To use simply slide screw holder to extreme front of bit, insert in screw slot and push. Bits are of round Chrome Molybdenum steel, tough and springy. Fluted Wood handle.

New Britain Special Ford Tools

FORD MOTOR JACKS

You will find countless jobs for this unique device. Simply remove the fan pulley nut and, by screwing the thread bolt into the crank shaft, you are ready to start it to work. When you wish to drop the crank case or turn over the motor while replacing rings or doing tune-up jobs, you will find this tool to be one of the handiest pieces of equipment in your entire tool chest.

Number	Weight	List Price
F-160 (for V-8 Models — 60)	2 lbs.	\$8.15
F-185 (for V-8 Models — 85)	2 lbs.	8.15

HUB BOLT PUNCHES

Whether you feel that a lot of metal should be turned over or just a little, you will find these Hub Bolt Punches ready and willing to perform. Because they are made from the toughest alloy steel, they will resist heavy wear for a long period of time.

Number	Weight	List Price
F-190 (For Passenger Cars)	16 oz.	\$2.35
F-192 (For Trucks)	24 oz.	2.50

FORD DOOR FRAME DEPRESSOR

The late model Ford Cars require this tool to get at the clips and it will pay for itself very often on the first job.

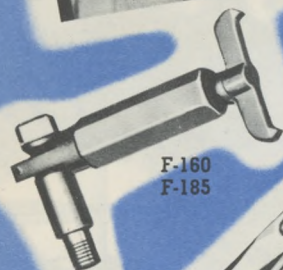

Number	Length	Weight	List Price
F-199	10"	4 oz.	\$2.50

PISTON PIN INSERTER AND REMOVER

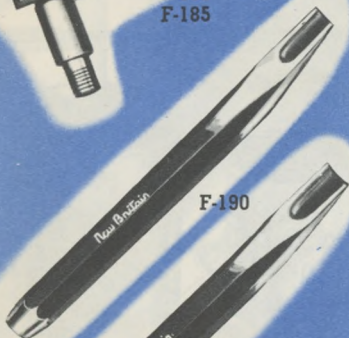

These tools are designed with a long pilot to insure perfect alignment of the piston pin when driving them in place.

They are properly tempered and accurately ground, insuring long, satisfactory service. To operate, take pin inserter and remover apart, place ends in piston pin and screw together firmly against ends of pin. Then drive from front end of remover. To replace pin, simply reverse the operation. Better results are obtained if the piston is heated in boiling water before driving the pin in place. No. R-835 is for Ford A and AA, B and BB; No. R-837 is for Ford V-8 Cars and Trucks, except 60 H. P. and Mercury Cars.

FORD SHOCK ABSORBER WRENCH

A new design for use on Ford Shock Absorbers. Just the right shape and design for these adjustments. One piece forging design. Socket opening $\frac{1}{16}$ " hex. Burnished Nickel Plated finish.

Number	Length	Weight	List Price
F-110	16"	1 lb.	\$2.10

New Britain Special Ford Tools

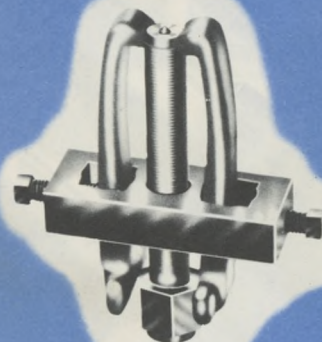

CYLINDER HEAD PULLER

After you crack a cylinder head, it is too late to buy the right tool for the job. The New Britain Cylinder Head Lifter works on an entirely new principle, for this type of job; yet, wedge type removers have proven themselves in almost every other kind of mechanical work. The screws of the lifter rest on top of the cylinder head studs and furnish the pressure needed to lift the head. One side of the lifter which is the wedge is forced under the head and it will quickly and safely loosen the tightest Ford head you ever get to work on.

Number	Weight	List Price
F-200	5½ lbs.	\$18.75

F-200

F-130

FORD WHEEL PULLER

A sturdy wheel puller designed especially for pulling all Fords whether Models A, B, or V-8. First, remove the hub cap, cotters and axle shaft nuts. The F-130 should then be attached to the groove in the hub. After tightening the center screws the hub and wheel can be removed together by simply tapping the center screw. Baked enamel finish.

Number	Weight	List Price
F-130	4 lbs.	\$6.90

P-109

SPECIAL FORD WHEEL PULLER ATTACHMENT

Designed to be used with the extra powerful New Britain Hub Puller No. P-105 described on Page No. 61. This device exactly fits on to a Ford Hub and permits pulling with the New Britain Hub Puller which will out-pull any other Hub Cap Remover in the world.

Number	Weight	List Price
P-109	3 lbs.	\$7.30

FORD SPRING SPREADER

It takes a lot of power to spread a Ford Spring. Yet, every garage doing Ford work must have a device for quickly performing this job in order to make money. One man alone can operate this tool which has been developed in collaboration with mechanics who knew the problem and insisted upon a perfect solution for this formerly tedious and expensive job.

New Britain

Special Ford Valve Tools

MICROMETER GAUGE

Makes perfect valve gauge adjustments possible. By the old methods, it was very difficult to get a reasonably good adjustment on Ford valves, regardless of the length of time spent on the job. With the New Britain Micrometer Gauge, the job is done quickly and it is possible to make the adjustment perfect to a fraction of a thousandth. The micrometer which is built into the gauge is thoroughly accurate and it is so designed that there is not any trouble in securing the correct reading. The Micrometer graduations are .001. Complete instructions for using the micrometer gauge are furnished with each set. A complete set for all Models A, B, Mercury, Lincoln Zephyrs and Ford V-8 (except 60 H. P.).

Number	Weight	Packed in Box. Size	List Price
R-131	1 lb. 9 oz.	8½" x 2½" x 1¼"	\$9.95

VALVE GUIDE ASSEMBLY PULLER

Approved by master mechanics who know the difficulties in pulling Ford V-8 Assemblies. This puller works with unbelievable ease. Prevents broken valve lifters and bruised knuckles. Because the tool gives a direct pull, it eliminates the danger of twisting or distorting the valve assembly. The only tool required with this unique puller is a lifting bar to raise the valve so that the puller cup may be slid over the valve head..

Number	Weight	List Price
F-198	3 lbs.	\$10.65

FORD VALVE GUIDE PUNCHES

The words, "never fail" mean a lot to an automotive mechanic. He must have tools that can be depended upon and this new type valve guide driver will always be ready to do the job. First, the Crank Shaft should be turned so that the valve is in highest open position. Then, insert the tool so that the foot guide does not enter an intake or exhaust port. Pull valve guide driver to an upright position and drive the guide down to remove lock. Then, nothing remains but to attach a New Britain Valve Guide Puller and pull the complete assembly from motor.

Number	Length	Weight	List Price
F-194 For V-8	10"	8 oz.	\$1.10
F-195 For Model A	10"	8 oz.	1.10

VALVE GUIDE LOCK PULLER ATTACHMENT

Designed to be used with a New Britain Slide Hammer No. P-155. It will quickly and certainly remove the tightest locks. It works so well that gears and bearings may also be pulled with the hook attachment and many other jobs around the car will lend themselves for use with this unique device.

Number	Weight	List Price
P-156	4 oz.	\$1.60

SINGLE END V-8 VALVE LIFTER

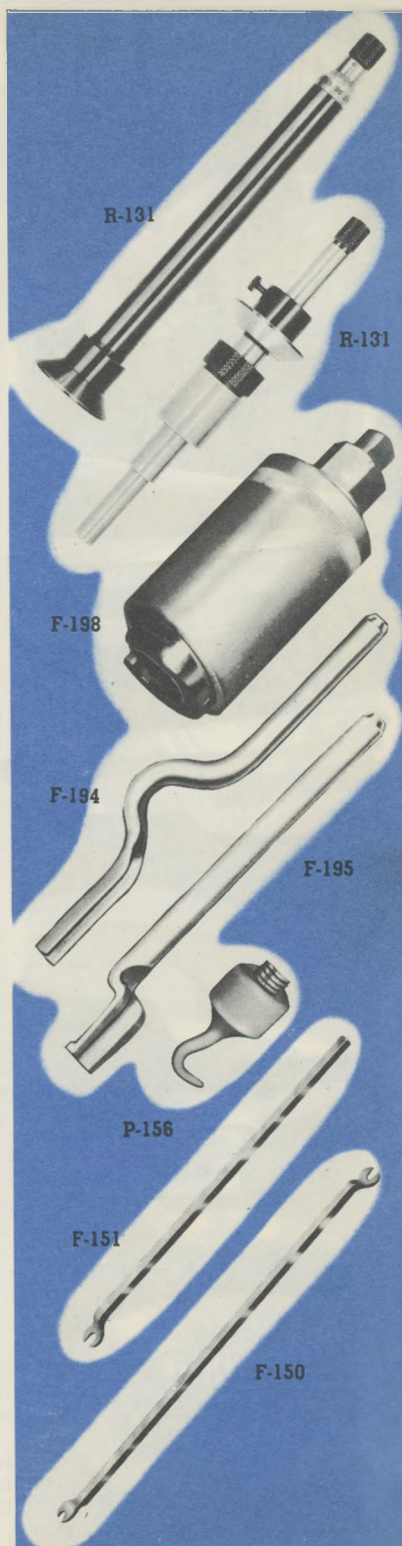

This tool will only handle the V-8 85 and most mechanics prefer the F-150, which is double end and will take care of both the V-8 60 and the 85. However, for those who already have a V-8 60 lifter, this tool does the job of lifting the V-85 valves.

Number	Length	Weight	List Price
F-151	22"	2 lbs.	\$2.50

V-8 60 AND 85 LIFTER BAR

A real mechanic's tool that will stand up under the heaviest work. The long 30" reach also gives tremendous leverage and the head is offset at the exact angle to take care of the upper and lower compressing jobs on both the V-8 85 and the V-8 60. Made from the toughest alloy steel so that it will stand up under rigorous everyday work.

Number	Length	Weight	List Price
F-150	30"	3 lbs.	\$5.00

New Britain Special Wire Brushes

The professional mechanic is not concerned with the price of wire brushes because he buys them as he would buy a tool to do a special job. New Britain wire brushes cost more because they produce more work and they are appreciated by experienced operators.

TIRE AND RIM BRUSH

A sturdily made brush with 19 rows, 3 wide, firmly secured in the wooden block. Because the wires are $1\frac{3}{16}$ " long, they will give excellent service.

Number	Length	Packed per dozen	List Price
W-44	14"	5 lbs.	\$.50

BRUSH AND SCRAPER

Designed with a comfortable handle grip. The scraper will loosen rust or scale and the wire brush will then speedily clean it off. 3 by 11 rows. Wires, $1\frac{3}{16}$ " long.

Number	Length	Packed per dozen	List Price
W-48	13"	5 lbs.	\$.60

HEAVY DUTY BRUSH AND SCRAPER

Has 17 rows, 4 wide, which insure fast work on large surfaces. Wires, $1\frac{3}{16}$ " long. Wide hardened steel scraper attached. Unequalled for removing rust, dirt, grease and paint.

Number	Length Block	Packed per dozen	List Price
	Overall		
W-45	10"	6 lbs.	\$.95

CARBON CLEANING END BRUSH

The heavy, wear-resisting crimped wire thoroughly and quickly removes hard carbon deposits from cylinder heads, blocks, tops of pistons, valve ports, etc. in a fraction of the time required by hand cleaning. For use on electric drills, pneumatic tools and flexible shafts. Length of wire out of cup, 1". Packed individually.

Number	Diameter Face	Diameter Shank	Weight	List Price
W-20	$\frac{3}{4}$ "	$\frac{1}{4}$ "	$\frac{1}{2}$ lb.	\$1.70

SUPER HEAVY DUTY CUP BRUSHES

Originated by the Automotive Industry for removing weld flash and smoothing welded joints. They are unequalled for removing rust, scale and other surface imperfections. Has the longest life of any type of wire brush made because of its great rigidity which is secured from the exclusive method of tufting which causes each tuft to support the others and thus reduce vibration. The only brushes which can be operated at very high speeds with complete safety.

The arbor hole is punched to fit directly on the spindle.

W-630	6"	$1\frac{3}{4}$ "	$\frac{5}{8}$ "	3 lbs.	7.80

New Britain Special Wire Wheels

The Automotive Trade requires better tools than any other field because most jobs must be done in a hurry and all of them must conform to the unequalled precision standards of the Automotive Field.

SUPER HEAVY DUTY WIRE WHEELS.

This wheel is new to most machine shop operators because it has heretofore been sold exclusively to the automotive manufacturers. Try it on some tough job which has licked every other make of wheel. You will be amazed at its ability to quickly remove welding flash from bodies; surface roughness from brake drums; shoes and other heavy duty cleaning operations. Use it on stationary or portable equipment and wherever you have a severe cleaning or buffing problem.

Constructed with the same cable-like design as the cup brushes. The wires in each knot support one another as do the knots themselves and the two steel face plates complete this powerful wheel. Packed individually.

Punched with correct arbor hole to fit directly on the shaft.

Number	Diameter	Width of Face	Arbor Hole	Weight	List Price
W-14	4"	1"	1/2"	3/4 lb.	\$4.25
W-16	6"	1"	1/2"	1 1/4 lbs.	6.95

W-18	8"	1"	3/8"	2 3/4 lbs.	7.50

HEAVY DUTY WIRE WHEELS

Widely used with portable tools and bench grinders for removing carbon, paint, rust and scale. Also for roughing up tires and tubes prior to vulcanizing. The countless special cleaning operations in the automotive field demand brushes which are outstanding. The construction of these brushes is that of thousands of strands of tough, wear-resisting wire, encased between two steel plates, insuring a densely filled, even brushing surface. The brushes are evenly trimmed and exactly balanced to produce efficient operation.

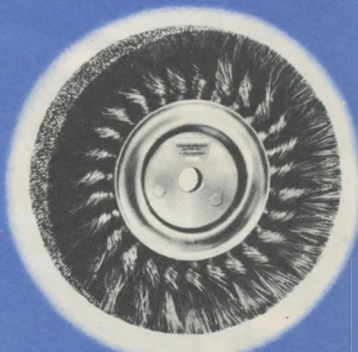

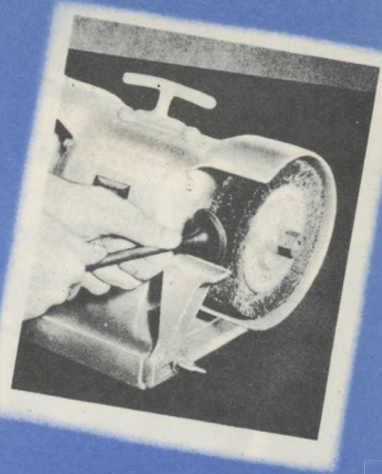

Arbor hole is adjusted to shaft by simply slipping into the standard opening of the wheel the pair of sturdy adapters which is furnished with each brush.

New Britain Work Stands and Desks

The complete catalog of New Britain Shop Furniture is sent upon request. It contains every style of work bench in use by leading machine shops everywhere. The many original and exclusive New Britain features have won them a world wide reputation. The pressed steel benches have the advantage over wooden fixtures of not splintering, warping or shrinking. In addition they will not soak up oil or other liquids and are therefore, fire-proof.

These "New Britain" work stands, are made of steel throughout, their unique construction affording ample strength with minimum weight; stability and durability without clumsiness. The legs are formed by a single steel angle, whose continuation across the top adds rigidity to the construction and a finish to the stand's appearance.

Trays are of such material and design as to render them remarkably stiff, and substantial. The strengthening influence of the 2" flange along the sides and back, is supplemented by a formed hem, which also supplies a smooth finish to edge of tray. Forward edge is turned down to afford more convenient access to, and facilitate cleaning of tray. At the corners, are welded gussets, by which trays are bolted to uprights and given additional support. All corners and edges are smooth to avoid possible injury. For bringing tools, and the job, together, these "New Britain" Steel Work Stands, are your best bet.

No. 9986. "New Britain" All Steel Work Stand. Tray size 16" x 26". Overall Height with Casters 35" without Casters 32".

New Britain Tire Tools

PORTABLE TIRE SERVICE RACK Complete with fifteen special tools

The only way to make money in tire repairing is to get the work done quickly. That not only suits the customer best but profits come only from volume work. New Britain Tire Tools are designed for the professional tire man. They cost more than any other line, but they are preferred by tire experts because the exclusive designs and the extra strength built into every one of the Irons is apparent to all.

The display stand is made from heavy gauge steel. It is designed so that there are no flat surfaces to catch the wind and it will not blow over when set out on a service island. 26 inches by 33 inches.

NR-172	16"	3 lbs.	\$4.60

LEVERAGE BAR

While this tool also serves as a Firestone Lock Ring Remover, it has been made so strong that it is the ideal leverage bar to be used with the No. NR-172 plus sockets to make up the Truck Rim Set.

Number	Length	Weight	List Price
NR-164	20"	2 lbs.	\$3.10

BUDD WHEEL SOCKET

Designed for Budd Wheels and other systems where $1\frac{3}{16}$ " Square Openings are required. Made only in $\frac{3}{4}$ " Square Drive to fit the No. NR-172 Extension.

Number	Opening	Weight	List Price
NR-93	$1\frac{3}{16}$ "	8 oz.	\$2.15

SINGLE RIM WRENCHES

A rugged tire tool that is favored by many who prefer to buy a set of these wrenches instead of the four-way type.

Number	Size	Std. Pkg.	Wgt. Pkg.	List Price
NR-20	$\frac{5}{8}$ " Socket	10	15 lbs.	\$.84
NR-22	$\frac{11}{16}$ " socket	10	15 lbs.	.84
NR-24	$\frac{3}{4}$ " socket	10	15 lbs.	.84
NR-26	$1\frac{1}{16}$ " socket	10	15 lbs.	.84
NR-28	$\frac{7}{8}$ " socket	10	15 lbs.	.84

New Britain

Service Station Equipment

New tools that cut tire-changing time make money for you every day. All of the New Britain Tire Tools have been created for the professional mechanic.

STEEL AND RUBBER HAMMER

One of the greatest time savers in time service work was introduced with this hammer. It provides a steel head for delivering a shock blow when it is needed. The rubber face will not damage fine work and it is available by merely turning over the hammer in your hand.

Number	Length	Weight	List Price
R-300	14"	2½ lbs.	\$4.35
R-301 Extra Rubber Heads			\$1.15

GIANT AMBER HAMMER

This has been created by the popular demand of thousands of mechanics who have come to use soft face hammers for all their work. Can be used for either impact blows or tapping in piston pins. This extra large size fills a long felt need.

Number	Length Handle	Weight	List Price
H-78	14"	38 oz.	\$4.80
H-78T Extra Tips			\$1.20

SOLID TYPE STEEL HAMMER

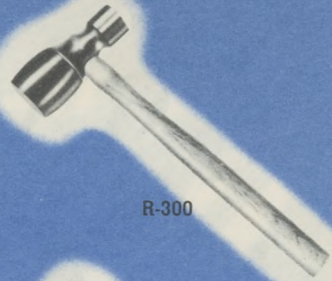

Often referred to as the indestructible hammer because it is impossible to strike the wooden handle against a rim and the drop forged steel section which might come into contact will stand repeated abuse for almost a lifetime.

Number	Length	Weight	List Price
NR-205	15½"	3½ lbs.	\$5.75

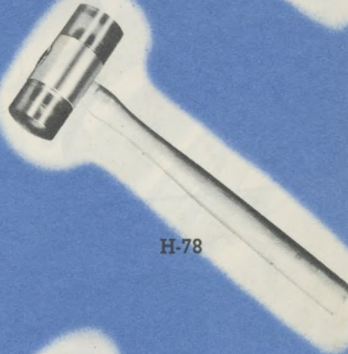

FOUR-WAY RIM WRENCHES

Perhaps no tool receives as much abuse in a service station as these Four-Way Rim Wrenches. They are in constant use and in many cases the rim nuts are so wedged on to the bolts that the wrench is subject to many severe strains. That is why New Britain Rim Wrenches have been carefully designed to first of all produce strength and the selection of sizes and lengths will take care of all of the requirements on passenger cars.

Number	Length	Finish	Std Pkg.	Wgt. Per Pkg.	List Price

New Britain Valve Lifters and Compressors

STANDARD UNIVERSAL LIFTER

Has great appeal for mechanics because it will take care of almost every passenger car and truck that is on the road. The patented spring steel jaws are so constructed that they will not slip off. Because the tool employs the rack and pinion principle, it does not require any special adjustments. Will clear the exhaust, manifold, and other obstructions without necessitating their removal. It will work in restricted places and, because of the special jaws which can be purchased for use with it, the correct instruments are available for use on almost every type of motor.

Complete with Straight Jaws and set of three Spring Holders.

Number	Size	Weight	List Price
VL-200	9 $\frac{3}{8}$ " x 11 $\frac{3}{8}$ "	5 lbs.	\$12.90

Extra Jaws for New Britain Standard Universal Lifter.

Number	List Price
VL-201 For most passenger cars, including Cadillac and Lincoln.	1.95
VL-202 Offset Jaws for GMC and Continental Motors.	1.95
VL-203 Special Offset Jaws for motors such as Dodge Six.	2.35
VL-205 For Plymouth, Dodge, Chrysler and Waukesha.	2.35

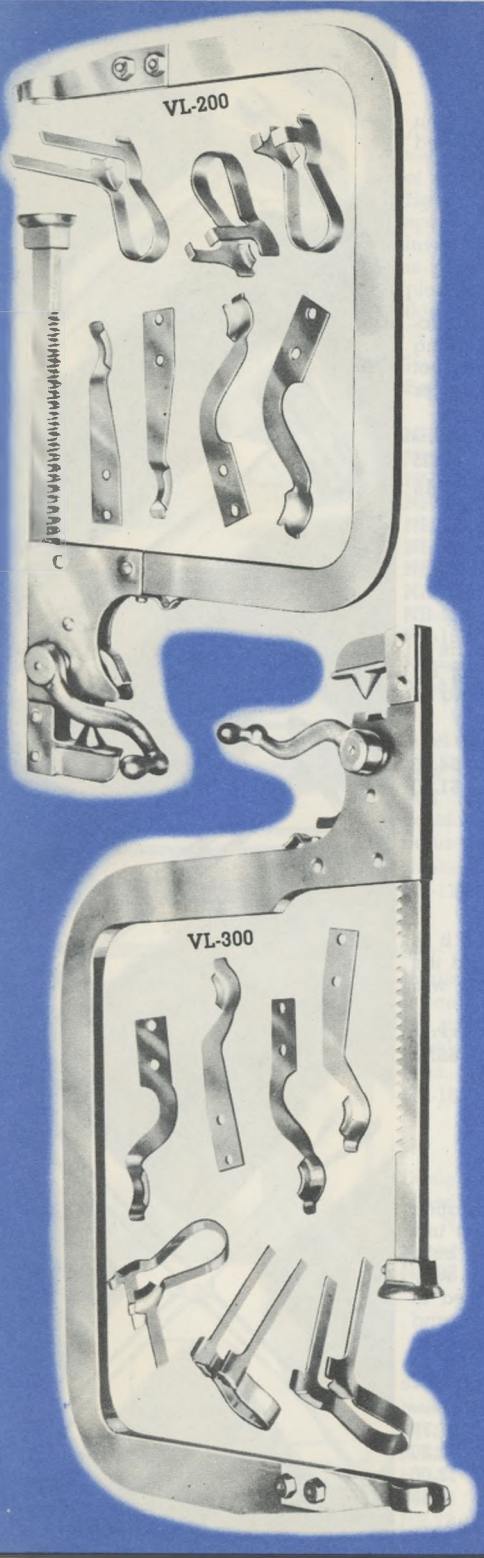

SPECIAL TRUCK AND TRACTOR LIFTER

For the extra large trucks, buses and the few tractors where the Standard Universal Lifter is not large enough to serve. This super-size lifter is 11" by 13" and it will take care of any of the jobs that you ever have to tackle. Complete with Straight Jaws and set of three Spring Holders.

Number	Size	Weight	List Price
VL-300	11" x 13"	7 $\frac{1}{2}$ lbs.	\$16.95

New Britain

Valve Lifters and Compressors

SHORT-STUB VALVE LIFTER

Can you imagine a Valve Lifter only 9" long with the lifting power of a large size tool. Because the jaws move parallel, it is possible to work in a closer space with this tool than any other lifter that has ever been made. It is light, strong and easy to handle.

Number	Weight	List Price
VL-150	1 lb.	\$4.00

FAY-O-RITE VALVE LIFTER

You've never seen a Valve Lifter like this one. It is short enough to fit most jobs and it has the unique quality of permitting a mechanic to form the ends to fit special jobs. The Lifter has actual chisel points and, because it is drop forged and not stamped, it can be bent cold in a vise so that you actually can make a special tool for your tough jobs which will hold up for a lifetime. Packed individually.

Number	Weight	List Price
VL-206	2 lbs.	\$3.50

VALVE SPRING COMPRESSOR

Powerful leverage is responsible for the ease with which the New Britain Valve Spring Compressor will handle even the stiffest springs. Use it for replacing and removing springs in late model cars as well as the older models.

Number	Length	Weight	List Price
VL-155	9½"	20 oz.	\$4.00

SPLIT LOCK INSERTER

An exclusive design that will replace all sizes of split locks and keys with safety and ease. Cadmium Plated.

Number	Length	Weight	List Price
VL-310	5"	2½ oz.	\$2.00

VALVE GRINDER

For many quick jobs it is most convenient to use a hand type grinder. The large size handle makes this tool easy to work and, especially on valves which have no grinding holes, you will find this tool to be very efficient.

The section cups are removable and replaceable.

Number	Length	Weight	List Price
V-5	15"	7 oz.	\$.95

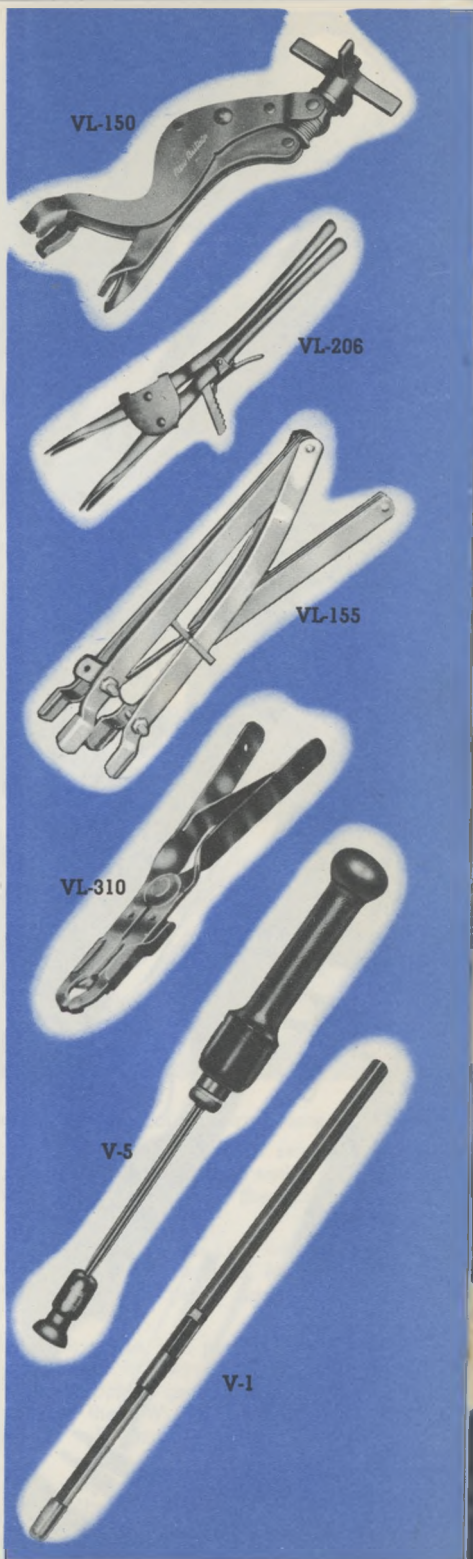

EXTRA VALVE GRINDER CUPS

Number	List Price
V-6	\$.35

VALVE GUIDE CLEANER

Will not do the job of valve guide cleaning as quickly or thoroughly as the patented adjustable valve guide cleaners on Page No. 70, but they will do a very satisfactory job on all guides where the carbon is gummy.

Number	Length	List Price
V-1	10"	\$1.60

New Britain

Front Wheel Bearing Service

Almost every service station brake specialist and garages who make service their specialty are now following through on front wheel bearing inspection. Accident Prevention Committees are especially urgent in recommending that front wheel bearings be inspected, washed and replaced or greased every 5,000 miles.

There is money in this service when a garage is equipped with the New Britain special front wheel bearing tools to take care of this new and profitable field. At least twenty million front wheels are running on ball bearings and you will do your customers a real favor by persuading them to let you check their front wheel bearings regularly.

BEARING RACE AND CUP REMOVER

Gets at the bearing cups and especially, if they are damaged so they must be replaced, this tool will drive them out easily and quickly. Use it for both the inner and the outer front wheel bearing cups.

Number	Length	Wgt. Ea.	List Price
WB-15	12 1/4"	14 oz.	\$1.85

BEARING KNOCKOUT DRIVER

Perhaps you have had trouble removing the inner front wheel bearings. This tool will remove all sizes from the smallest to the largest. The outer bearing comes off with the wheel, but the inner bearing is often tight and hard to remove. This special New Britain tool will remove the tightest bearings with ease. It cannot hurt the bearings because it is equipped with pyralin tips which will not injure metal and yet stand a lot of abuse themselves. No expense has been spared in producing this tool because the large amount of work to be done makes it important that the tool be as fine as possible for the purpose. One of the pyralin tips is smaller in diameter than the other so that one end can be used to drive out inner front wheel roller bearings and the other for the inner ball bearing types.

Number	Length	Wgt. Ea.	List Price
WB-10	14"	14 oz.	\$4.05

GREASE RETAINER AND HUB CAP REMOVER

Thousands of mechanics are now using tools of this type and they have been widely accepted as a simple and efficient method for performing several operations with the investment of only one tool. It will remove all types of dust caps and hub caps.

Number	Size Overall	Wgt. Ea.	List Price
NR-330	16"	1 lb.	\$3.55

BEARING FLUSHER AND WASHER

Just place the bearing so that it rests in the bottom of the die case cup, and centered so that the hole in the bearing is in line with the top funnel. By simply setting the flusher in a can of kerosene and pulling the cleaning fluid through the bearing balls or rollers with an upward pull, the bearing is completely surrounded with liquid and doubly washed as the handle is plunged downward. Because new bearings are tight, they actually require flushing as much as the old ones and, unless the worn grease is thoroughly removed, the bearing cannot give proper service.

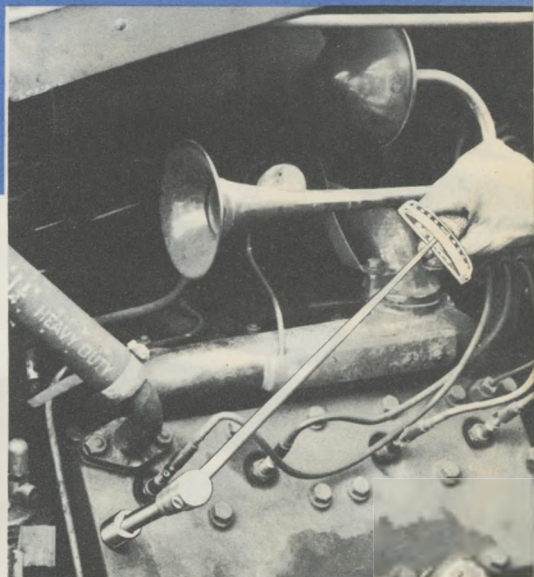

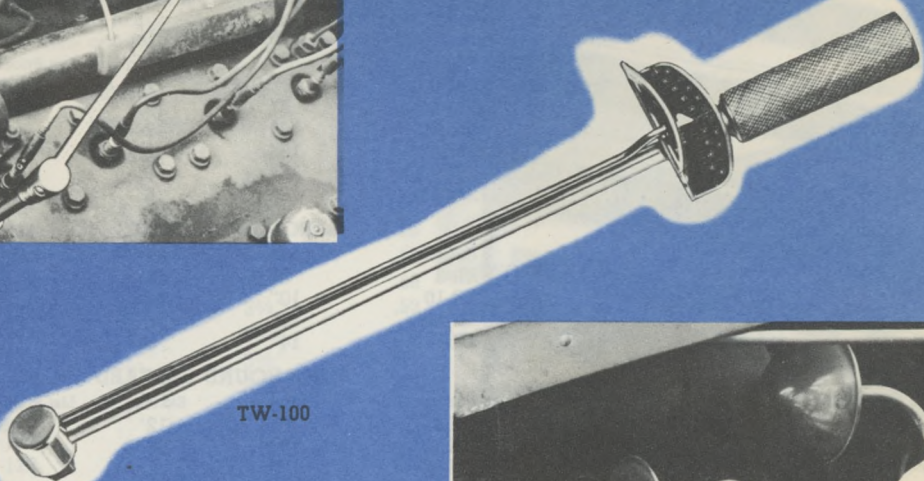

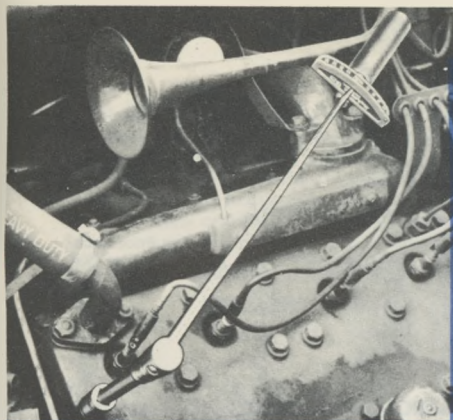

Number	Length	Wgt. Ea.	List Price
WB-25	18"	4 lbs.	\$10.35

New Britain Torque Wrench

Constantly increasing precision in the manufacture of automobiles and airplanes — plus the problems raised by streamlining, demand increasingly accurate tools in service work.

The New Britain Torque Wrench is not to be confused with so-called "Tension Indicators" etc., because Torque measurements pertain to twist, against Tension measurements which pertain to a straight pull. The Torque measurement is the correct one required for measuring the tightness of nuts which is so vital in the proper operation of modern automobiles.

Automobile Manufacturers have definite recommendations as to the correct Torque reading for different parts of the car and the modern automobiles with their thinner cylinder walls, lighter blocks and higher compression heads demand strong adherence to these figures if the automobile is to run at its maximum efficiency.

The Torque Chart furnished with each wrench not only takes care of most of the cars on the road, but it gives recommendations for the proper Torque on dry threads or oil threads, for Cylinder heads, Main bearings and Manifolds. It also provides a guide for spark plugs and all of the popular truck and bus engines.

The Wrench is designed for getting into the close quarters on modern cars. It is perfectly balanced and will permit you to do speedy and accurate motor tightening. Any $\frac{1}{2}$ " Drive attachments can be fitted up with it where obstructions make it impossible for the wrench to get close to the work. All readings up to 100 ft. lbs. (1200 in. lbs.) can be measured with the TW-100. If your work requires measurements on trucks which run up to higher figures, we will gladly send a bulletin describing our attachments to take care of this heavier work.

Number	Drive	Length	Weight	List Price
TW-100	$\frac{1}{2}$ " Sq.	19"	2 lbs.	\$18.75

New Britain High Speed Twist Drills

(American Pattern)

Ideal for Garages, these nationally famous American High Speed Twist Drills and Drill Taps are adapted for an all-purpose drilling. Whether you wish to drill through soft or hard steel, they work equally as well, and are especially noted for their heat resistance under abnormal strains.

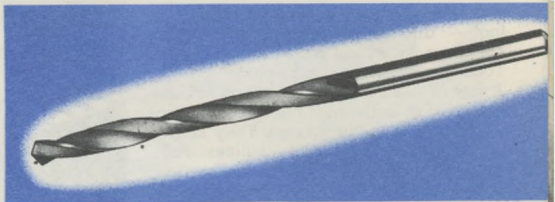

These New Britain Drills are manufactured from only the finest select grade of Alloyed High Speed Steel. They are accurately ground to size, possess an all-purpose flute, and are heat treated by the most modern conditions to insure maximum hardness for long life.

PRE-TEST—INSPECT—TEST—INSPECT—RE-TEST—INSPECT...

From the entry of the finest alloy steel into this plant, to the time it emerges in the form of superb Hand Tools, careful testing and persistent inspection — every step of the way — is a New Britain tradition.

It would be impractical, within the limitations of the pages of this book, to completely picture the testing — re-testing — and rigid departmental inspections to which New Britain Hand Tools are constantly subjected.

A few of these testing operations, laboratories and individual inspections may be glimpsed on this spread. They show not alone the extensive facilities and attention to every detail in this organization, but the ceaseless care taken to safeguard the high reputation of New Britain Hand Tools.

Everything offered by research and present day metallurgical science, plus the skill of generations of trained men at the most modern, precision machines, is reflected in this new line of automotive Hand Tools. Look for the hallmark of tool quality — the name —
